Experts Will Consider Supply. **Bolsheviki Driving Poles Back.**

Teutons Win Further Concessions From Allies at the Spa Conference.

Starts Trouble by Some Bitter Remarks. drawal to Frontier of the New Republic.

German representatives presentation of their coal and electric situation to the representatives of the Allied governments here today won for them further concessions in an agreement to have German and Al-

It was another day marked by forceful language, the presiding officer, Premier Delacroix of Belgium, interrupting Hugo Stinnes, German coal magnate, when he attempted to

Both Stinnes and Otto Hue, president of the German Miners National Association, said the threatened occupation of the Ruhr would only serve to stop production. Stinnes said: "The Ruhr is not a river, where a stand has been made. It is announced that the military are evacuating Minsk, which is threatened from the north and east. The Ukrainians are prepared to hold Kiev against the Poles."

He denied the accuracy of the Allied figures regarding German coal production.

Hue said the diplomats might order coal, but only the miners could produce it. He advocated the six-

fact Lemberg and the Polish right flank, which is being pressed by Gen. Buddeny.

PARIS, July 10.— Polish forces are withdrawing from Brest-Litovsk, Vilna and Pinsk, as a result of the

declaring the American, British and French miners approved this view. After the conference had turned over the coal problem to the experts, Dr. Walter Simons, German Foreign Minister, on behalf of the German delegation expressed regret that

Dr. Simons said he would be able to announce the German plan at the conference meeting tomorrow.

It was extremely important, said Dr. Simons, that the capital sum of reparations be known.

Premier Millerand commented that Stinnee's declaration had neither been exact nor given in a courteous manner.

He said that the capital sum of reparations was about ninety-five million francs of Brest-Litovsk. Vilna is the principal city of Lithuania and is about 325 miles northeast of Warsaw.

The Paris report of a withdrawal movement by the Poles from Brest-

Dr. Walter Simons, German Foreign Minister, said Stinnes and Hue did not represent the German government, but he thought it advisable to hear two men so intimately connected with coal production in Germany.

It is the custom of the conference for speakers to remain seated, but Herr Stinnes stood up. He said: "I stand because I want to look my adversaries in the eye." He continued in substance: "The military protocol which the

July 7 will increase discontent and disorder in Germany. It will make it more difficult to maintain our coal production and will not help us to increase it.

"It is all very well for you to tell us that unless our coal production

which the dispositions were made under which the Allies might help Poland in her fight against the Bolsheviks.

Better news from the Polish-Bolshevik front was received by Polish circles here today, the news

OLD OCCIDENTAL IS SOLD.

Chiropractic College Takes Over Former Buildings and Campus.

The property bought is about four acres lying between Avenue 50 and Avenue 51, Pasadena avenue and the railroad property lying behind it. The principal buildings are the hall of letters and the

Completed June 18, for \$500,000, and October 1 will be reopened as a chiropractic college with accommodations for 500 students. If the plans of its promoters work out it soon will be larger than any other school in the world. The school completed in 1904. The price is said to have been \$100,000.

Four other chiropractic colleges already are operating in California, three in Los Angeles and one in San Francisco. The new college will be independent of those schools.

The purchasers announced yesterday that they will at once spend \$45,000 in improving the property. The new college will begin with a faculty of five, the salaries ranging from \$3000. to \$5000. The trustees

ers will have no outside practice and will work in the college six hours a day, two hours in the morning, two in the afternoon and two in the evening. Willis Keech said Park is much pleased by the sale, as the unoccupied property has been a drawback while the new and enlarged college will be a considerable improvement.

Republicans throughout Southern California will gather at a public meeting for the ratification of War-

On this occasion will be formally launched the campaign for the Republican candidates for the Presidency and Vice-Presidency, at Trinity Auditorium on Thursday evening, July 22.

California, and from then until the November election will continue the Republican organization intent on making a winning race.

Arrangements for this ratification meeting were made yesterday at a meeting of the Republican State

on, at its headquarters, 302 H. W. Wellman Building. Joe S. Crail, chairman, presided.

Edwin A. Meserve was appointed chairman of the Trinity Auditorium, and the following working committees were named: Com-

The Foot-Blown DUO-ART Can Be Played FOUR WAYS

You can place into this wonderful instrument a specially recorded for the Duo-Art by one of the world's greatest pianists and hear an absolutely faithful reproduction of his playing in all its subtle gradations of tone and expression. You can play this same roll according to your own interpretation, merely by turning a little lever before you begin. The Foot-Blown Duo-Art is also a "glorified" piano and will play any 88-note player roll. It is likewise a fine piano for hand playing. What more wonderful combination could you ask than this?

The Bickel Company is exclusive agent for the Duo-Art Reproducing Piano—either in the foot-blown or electrically propelled model. Made in the Steiner, Steck, Woblock, Stroud and famous Weber pianos. Prices begin at \$920. Liberal monthly terms when desired.

HONOR MEMORY OF GEN. GORGAS.

English Give Yellow Fever Fighter Military Funeral.

Crowds Gather at St. Paul Cathedral to Pay Tribute.

Representatives of Many Countries Attend Service.

BY JOHN STEELE.
(BY CABLE—EXCLUSIVE DISPATCH.)
LONDON, July 10.—A large congregation was present in St. Paul's Cathedral yesterday to do honor to the memory of Maj.-Gen. William Crawford Gorgas, famous as one who fought and won a famous battle against the seemingly invincible yellow fever and malaria which had become a deadly pestilence in the Panama Canal zone at one time look impossible.

Outside the cathedral a great crowd witnessed the imposing procession. The coffin was brought from the hospital under the charge of six pallbearers, Maj.-Gen. W. G. MacPherson, A. P. Blenkinsop and Sir G. B. Stanstreet and Col. O. L. Robinson, McKinnon and Inge, Jr. British troops formed the military escort, including the Staff Guards Brigade, the third squadron of the Life Guards and the first battalion of the Irish Guards.

MANY ATTEND.
The coffin was carried on a gun carriage and was followed by a sad-faced charger led by a dismounted man. The procession was led by the Coldstream Guards band. Many distinguished men joined the cortege as the coffin came through the west entrance, including the United States military naval attaches, president of the Royal College and Surg.-Gen. John Finney of the United States Army Medical Corps, many British military and naval officials, representatives of the British colonies and diplomats from Argentina, Cuba, Panama and Peru.

SERVICE BEAUTIFUL.
The service was simple and beautiful. The lesson was read by Dean Inge, the service concluding to the accompaniment both of organ and the band of the Second Life Guards in the great American song: "Mine Eyes Have Seen the Glory of the Coming of the Lord."

TO REBUILD CHURCH.
Following the fire which destroyed the building of the Mexican Mission in La Verne last Sunday, pastors of the four La Verne churches have raised nearly \$1000 with the aid of the La Verne churches to rebuild the structure. Rev. F. Moreno, in charge of the mission at La Verne, lost everything he possessed. The fire broke out in 1885. The hamlet was then known as Lodi.

MIDDLE WEST NEWS IN BRIEF.

(EXCLUSIVE DISPATCH.)

DENVER, July 10.—Fire yesterday afternoon destroyed East Turner Hall at Twenty-first and Arapahoe, a large building in which were stored the buildings in that block. Cause of fire, explosion of stored gasoline. Millionaire Stokes has filed an appeal to the Supreme Court denying Judge Lindsey's jurisdiction assigning sixty-three errors in Lindsey's court and asks that his decision giving custody of the two minor children to their mother, Helen Elwood Stokes of Denver, be set aside. Miss Georgia Marfield of Ventura, Cal., and her friend, Mrs. Fern Lewis, formerly California, were compelled to appear in Judge Bray's court today to identify \$150 worth of silk lingerie. Both women were much embarrassed and the court is still blushing.

MINNEAPOLIS, July 10.—Asserting that the city of Minneapolis has nothing to do with the present strike in Minneapolis, the company answered charges brought against it by W. E. Leonard, an interviewer yesterday, asking \$1.25 a thousand feet in place of the \$1.14 rate set by John McKee, special master in his recent lawsuit.

Papers were executed yesterday by which the New England Furniture Co. of Minneapolis was to sell the seven-story North Star Building at the northwest corner of Fifth street and First avenue north for a term of twenty years.

ST. PAUL, July 10.—Automobile regulations in Minnesota created to protect motorists and pedestrians from accidents due to dashing headlights will be nullified by enforcement of a decision of the State Supreme Court today, according to Chief Justice Johnson in dissenting opinion. "The construction given the statute is strange," said the Chief Justice, "and admitting it will nullify effectively all efforts to suppress the brilliant, dazzling automobile headlights which bring terror to the traveler upon our much-frequented narrow highways and boulevard." There is a possibility the ruling of the Minnesota court may be followed in other States.

INDIANAPOLIS, July 10.—At a closed session of the board of commissioners a resolution was adopted, asking for the resignation of George H. Rickard, superintendent of public buildings and grounds. Elmer E. Stevens of Indianapolis is the newly elected president of the Indiana Bar Association. Dr. M. L. Haines received the title of pastor emeritus from the First Presbyterian Church in appreciation of his thirty-five years' service, at a congregational meeting which had been called by Dr. Haines to act upon his resignation.

ST. LOUIS, July 10.—Glenn, the old country home of Mrs. Angella Charlotte Carr at Glenwood, Mo., around which the famous old St. Louis centers and which furnished the scenes for Winston Churchill's book "The Crisis," was destroyed by fire yesterday.

ST. LOUIS, July 10.—Glenn, the old country home of Mrs. Angella Charlotte Carr at Glenwood, Mo., around which the famous old St. Louis centers and which furnished the scenes for Winston Churchill's book "The Crisis," was destroyed by fire yesterday.

ARIZONA NEWS.

(SPECIAL CORRESPONDENCE.)
PHOENIX, July 7.—Plety evidently has "struck in" on a former resident. James Gallagher has admitted \$10 to the Attorney-General of Arizona as a self-inflicted fine for the killing of a road runner, the "champion" cock of the Arizona desert, under the impression that it is a killer of rattlesnakes. Gallagher writes from Phoenix, Ariz., that his crime has been on his mind for years past. The same individual has written the Sheriff of Maricopa county confessing while in Arizona two years ago he carried a gun in defiance of law, and that he wished to pay the proper fine if the Sheriff will only name the sum. He states that he is straightening up his past life that he may not meet the future more serenely.

George A. Trissel, a rancher of Aguilera, has been arrested for non-support of a minor child, after having been separated from his wife in Ohio for seventeen years. He had been informed that his wife divorced him ten years ago, so he had remarried. What he believed the record in divorce cases is held by the Superior Court of this county. Frances Stark filed suit for divorce from M. Stark at 1 o'clock. Judge Stanford granted the decree. There were allegations of cruelty.

Abstract of title to some local property this week was found clouded by a minor child, after having been separated from his wife in Ohio for seventeen years. He had been informed that his wife divorced him ten years ago, so he had remarried. What he believed the record in divorce cases is held by the Superior Court of this county. Frances Stark filed suit for divorce from M. Stark at 1 o'clock. Judge Stanford granted the decree. There were allegations of cruelty.

Work on a new cotton gin south of Yuma had to be suspended until an expert was found to live a swarm of bees that had taken aggressive possession of the structure. There has been diplomatic correspondence between the Arizona and Eastern Railroad Company and the city of Globe, the former complaining that the driver of one of the city's teams repeatedly has interfered with the passage of trains at city crossings, leisurely pursuing his way across the track, forcing the locomotive to come to a sudden stop. The teamster has paid no attention to whistle toots or engine bells, and seems to scorn the possibility of damage to himself. The Globe City Council has requested the employee to use more consideration in the future.

At a port on the Mexican line, Demetrio Andrade tried to pass the line with 100 pounds of cheese secured in his wagon. He would have succeeded had not the cheese been of the sort that made its presence emphatically known to the passer-by.

A rancher in the northern forests got some poisoned grain to feed prairie dogs. A friend came to the ranch while the owner was absent, and finding the grain, fed it to his horses, which lived only an hour thereafter. Jimmie Swinnerton at Flagstaff, tells a story of meeting an old Indian who told him he had "someday" to show him. There was a journey of eight miles to a cabin where the Indian lived. He waved his hand toward a shelf whereupon, in a row, were fourteen nickel alarm clocks.

A Touch of Art In Wallpaper

IMAGINE for a moment, roomy exhibition booths for showing, under perfect daylight conditions, everything that is new and most pleasing in wall paper.

Picture yourself comfortably enjoying the privacy of one of these airy individual compartments with nothing to distract or disturb you. Here, calmly and leisurely, you may indulge your taste by selections from among hundreds of artistic ideas in textures, colors and tones.

This is why the Store Beautiful is spoken of as individual, distinctive and authoritative in artistic interior decoration.

If you are seeking decorative ideas and desire to put into them the touch which lends the charm of art to the home, visit our Hill Street Store.

VILLA VOWS NEW REIGN OF TERROR.

Rejection of His Armistice Terms Brings Bloody Warning From Bandit.

(BY A. F. NIGHT WIRE.)
EL PASO, July 10.—Francisco Villa, the Mexican bandit and revolutionist, sent word to the border today by one of his agents that rejection of his terms by the new government in Mexico would cause him to start a new reign of terror in Northern Mexico.

Villa, it was said, has discontinued his operations until July 15, as the result of an armistice arranged in negotiations last week. The agent said Villa had received renewed pledges of support from other revolutionists, who were against the Carranza government and now are either actively at war or planning campaigns against the De la Huerta regime. All these leaders were declared opposed to the 1917 constitution and will seek to have a government set up in Mexico that will restore the constitution of 1857.

UNREST SPREADING.
An American returning to the border from a trip through Mexico said there is a wide undercurrent of dissatisfaction in Mexico and that former Mexican Federal officers ousted by the new regime are creating dissension. Southern Mexico leaders, he said, are particularly bitter. He said he had seen 12,000 Mexicans, principally Tazul and Mayo Indians, who were taken there by Gen. P. Elias Calles, Minister of War and Marine, and these have supplanted all other soldiers in the capital whether former Federal or troops of other leaders in the recent revolution.

"Harding" Defeated by "Jim Cox."
(BY A. F. NIGHT WIRE.)
ST. LOUIS, July 10.—"Jim Cox," a mule named for the Democratic President, defeated "Harding," a gray horse, in a race at a picnic here today.

OIL FOUND TO CURE LEPROSY.

Imported From India, It is Said to do Marvels.

Boston Physician Asserts He Cured Two Cases.

Medicine is Product of East Indian Plum Tree.

(EXCLUSIVE DISPATCH)
BOSTON, July 10.—The century-old dream of the medical profession, the cure of leprosy, has been realized, according to Dr. Bernard F. Carey, Deputy State Health Commissioner.

Two young men who have been confined at the State leprosy colony at Andover for the past three years are to be sent home cured of their malignant disease if it is proved absolutely they are cured.

Dr. Carey says that repeated tests show the two patients are free from leprosy, cured by the three-year treatment of the oil of the East Indian plum tree.

The two patients said Dr. Carey not only believed them cured, but to have become immune from further infection.

On July 10 a board of five nationally famous physicians, including Dr. Victor Heiser of the International Board of Health of New York, will begin intricate tests and examinations of the two patients and if their decision substantiates the belief that the two patients are cured, they will be sent home—cured.

Dr. Carey said that the treatment of the men consisted in plenty of air and sunshine, good food, and similar to treatment of tuberculosis, and in addition the use of chemicals imported from India, and sodium morrhuae and sodium glycyrrhizate.

The three substances were given internally and also as a hypodermic.

The oil was given in capsule form when taken internally, as it is an irritant.

Five drops were given at first and the amount increased until a dose of forty drops could be taken by the patient without upsetting his stomach. This Indian oil was administered three times a day.

BOARDWALK CABARETS RAIDED FOR LIQUOR.

(BY A. P. NIGHT WIRE)
ATLANTIC CITY (N. J.) July 10. Six cabarets and cafes in or near the boardwalk were raided simultaneously today by prohibition agents from Philadelphia.

Large quantities of liquor were seized and parties were broken up. The raid was the result of a report that the boardwalk was being used as a base for the distribution of liquor.

The raid was the result of a report that the boardwalk was being used as a base for the distribution of liquor.

SUSPICIOUS OF LEADERS.

(Continued from First Page.)

closed doors and said he was willing to add to its membership.

Then B. E. Dowdall of South Dakota gave the forty-eighters a pen picture of themselves.

"When this convention finally gets together and the other groups who want a third party have joined us, this is going to be the most motley aggregation you have ever seen," he said.

"Every one of us in this convention is an egotist and we are impatient of the ideas of others. We are all generals and we have no privates. Some one has got to lead to lead and to be patient if we are going to get anywhere."

"For myself I am one who is here because the East has had too much to say about naming the Republican and the Democratic candidates and I think that to place our affairs in the hands of an eastern committee at this time will be a great mistake."

Finally by the use of his gavel the chairman restored order and the motions before the convention were disposed of, and it was agreed to add ten members to the committee, the additional ten to be elected from the floor.

There was another clash as to whether the election should proceed at once, but finally a recess was agreed upon, the chairman again being forced to use his gavel to enable the delegates to reach a decision.

While the forty-eighters were in session the American Constitutional party, meeting in another room in the Hotel Morrison, issued a statement calling upon all of the so-called third party groups to get together and suggesting a basis of harmony.

Other third party groups also were active, awaiting the decisions of the convention.

GERMANS IN A COAL PLAN.

(Continued from First Page.)

will occupy the Ruhr. I may tell you that if you should expect by occupation of the Ruhr to obtain more coal than you now do, you would find yourselves mistaken. Not only would you not get more coal, but less, because the miners would refuse to work. They are doing now all they can with the meagre food with which they are supplied.

"Notwithstanding exhaustion from lack of substantial food they work for hours extra twice weekly so as to increase production. You gentlemen cannot by an expression of your will merely give an order and increase our coal deliveries."

That is why, if practical results are to be obtained, there must be an agreement between the French and the Germans.

"M. Millerand said yesterday that the Germans were accorded the right to speak as a matter of courtesy. I claim to speak as a matter of right and whoever is not afflicted with the disease of victory—"

Here M. Delors interrupted and said: "The object of this conference is to arrive at a peaceful solution and I must therefore ask Herr Stinnes not to be provocative."

Stinnes resumed said: "This conference is the ear through which Europe could hear the facts. That is why I wish to speak. Without co-operation nothing can be done. That is why I wish to speak as a matter of right and not as a matter of courtesy."

M. Millerand's figures concerning France, that his figures concerning Germany are quite wrong. Germany has not produced 73 per cent of her pre-war coal and it is not true that 85 per cent of the German iron industries are at work.

FRENCH COAL SITUATION.
"I recognize that the French coal situation is serious and although the Versailles Treaty was based upon German, every German employer and workman must strive to help France as many of her mines have been destroyed, although this destruction was not wanted, but one of military necessity."

"Germany is reproached for not living up to her coal obligations under the treaty. As a matter of fact, before the treaty was signed Germany had voluntarily supplied France with considerable quantities of coal. The Germans now recognize that this act was dictated by an unwarranted sentiment."

"The reparations commission is now demanding 25,000,000 tons per annum. It is impossible to comply. The Ruhr output in May was 2,000,000 tons per day. It has now reached 285,000 tons, this on the basis of 288 working days per annum."

"The Ruhr output in May was 2,000,000 tons per day. It has now reached 285,000 tons, this on the basis of 288 working days per annum."

FITZGERALD
New Edison

Why Fitzgerald's

is the best place
to obtain

The NEW EDISON

Good judgment always suggests that one go to
"headquarters" for anything desired. Fitz-
gerald's is in a sense "headquarters" for the

New Edison, be-
cause this house
stands in the fore-
front of all Edison
dealers of the South-
west, by reason of its
leadership in point of
stock carried, and by
reason of its chosen
restriction to Edison
instruments exclu-
sively.

Specializing as we
do we are naturally
able to carry a more
extensive stock of in-
struments and Re-
Creations, and we
are able to and do give Edison owners the ut-
most service at all times, keeping their instru-
ments in perfect condition always.

Let us demonstrate the New Edison to
you either in your own home or in our
Edison Dept. Our special terms and Bud-
get Plan will interest you.

CRACK STEAMER RETURNS HOME.

Harvard Docks and Yale is
Due Tomorrow.

Los Angeles Owners to Equip
Both Luxuriously.

Ready for San Francisco Run
in Four Months.

Forerunner of a mighty fleet of
passenger-carrying steamships flying
the flag of Los Angeles, the crack
steamer Harvard entered the out-
er harbor at dawn yesterday morn-
ing and docked a little before noon
near the yards of the Los Angeles
Dry Dock and Shipbuilding Com-
pany. Her sister ship, the Yale, was
about 600 miles behind and is ex-
pected to arrive some time to-
morrow.

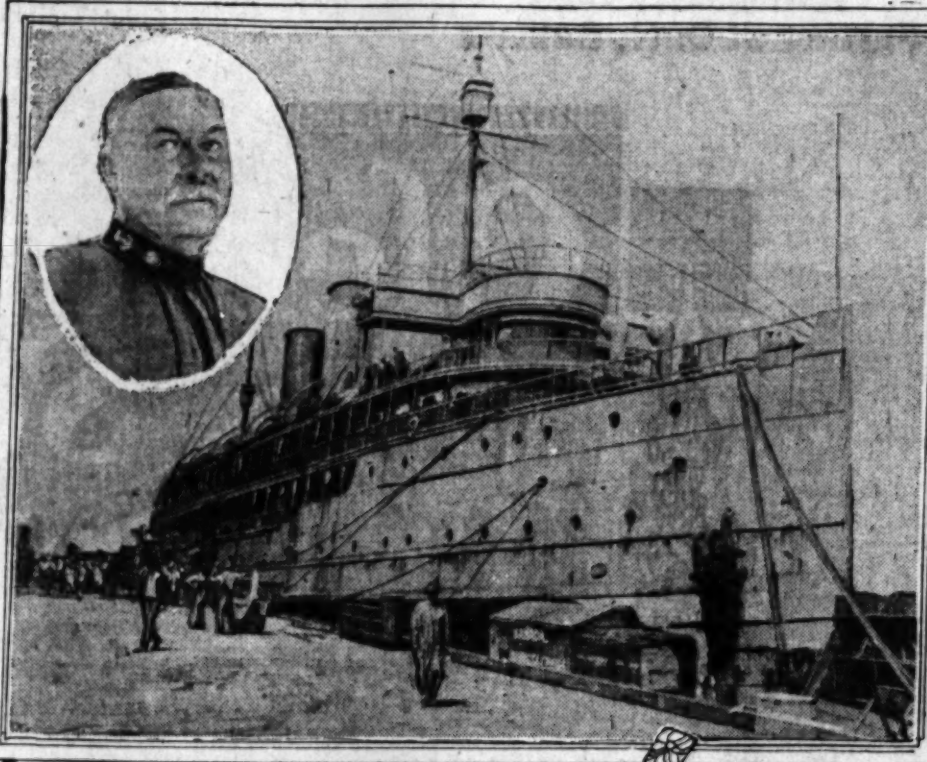

The Yale and Harvard were pur-
chased by a local syndicate from the
government for \$1,755,000. The
syndicate was later organized as the
Los Angeles Steamship Company.
The company will put the ships on
the run between Los Angeles and
San Francisco and has applied to
the United States Shipping Board
for the allocation of four large
steamships. The company plans to
extend its activities to include serv-
ice between Los Angeles and great-
er ports as well as coastwise serv-
ice. The ship, which was known in
the navy service, the Harvard, is
Leaves Island Navy Yard, Phila-
delphia twenty-four days ago with
the Yale close behind. The Harvard
is in command of Capt. H. F.
Weeden. Stops were made at Jack-
sonville, Colon and Salina Cruz. The
trip was uneventful, Capt. Weeden
said.

IN TRANSPORT SERVICE.
The ships are of 4400 tons gross
and are equipped with Parsons tur-
bine engines and twelve Scotch ma-
rine boilers developing 8000 horse
power. They were among the fastest
ships in government service and
are said to have transported more
troops than any other two United
States vessels. They made almost
daily trips across the channel for
months while the war was in pro-
gress. Because of their fine construc-
tion and extreme speed government
officials had planned to have them
remodeled for use as aircraft tend-
ers.

Approximately \$1,500,000 is to be
expended in re-equipping, decorat-
ing and furnishing the ships. The
work will all be done in Los An-
geles by the Los Angeles Dry
Dock and Shipbuilding Company and
the Ralph J. Chandler Shipyard.
They will be docked in the dry
dock of the Los Angeles Shipbuild-
ing Company, which is now nearing
completion and will be ready for
service in about four months.

EXTENSIVE REPAIRS.
The hulls will be overhauled, re-
inforced and repainted and the en-
gines will be adjusted to make the
boats the fastest and smoothest
running in the coastwise service.
The original color scheme of crim-
son for the Harvard and blue for
the Yale will probably be followed
in the decorations. There will be ex-
tensive alterations in the arrange-
ment of state-rooms and other
rooms. The boats will carry only

Fast Steamship Home Again from War Service.

S.S. Harvard Docked at Los Angeles Harbor Yesterday.

At the upper left is Capt. H. F. Weeden, in command of the ship from Leans Island navy yard to Los Angeles.

first-class passengers and will each
have about forty combination suites
consisting of state-room, maid's
room and bath, all beautifully fur-
nished. In addition there will be
built large entertainment rooms in-
cluding ballroom, card rooms, ob-
servation rooms and smoking
rooms.

Equipment and furnishings will
be elaborate and luxurious and many
devices that make for comfortable
sea travel will be installed. It is
planned to set a high standard of
passenger service on these boats to
be maintained by other ships flying
the company flag on other routes
out of Los Angeles.

The Yale is in command of Capt.
T. D. McFarland of San Pedro. Capt.
Weeden gave the Harvard high
praise yesterday for the fine be-
havior and good qualities of his
ship. This is not Capt. Weeden's
first trip here. He stopped at San
Pedro in 1914, when there had been
little done to improve the harbor
and there was practically no har-
bor business. The sole ship here
at the time, according to Capt.
Weeden's recollection was a little
sidewheel steamer, Los Angeles,
with a draught of only two feet of
water.

MAY HELP COUNTY.

Long Beach Council Decides Fire
Chief Must Use Judgment.

[LOCAL CORRESPONDENCE.]

LONG BEACH, July 10.—City au-
thorities today decided that here-
after the judgment of the Fire Chief
shall be relied upon when the ques-
tion arises as to the advisability of
sending the fire apparatus outside
the city limits.

This decision was reached as a
result of the recent incident when
an engine and crew of city firemen
saw by just over the municipal
boundary line and watched a dwell-
ing in the country burn up. It was
stated at that time that Mayor W. T.
Lisensby, called upon for a ruling,
had ruled that in such cases the fire-
men should not make the run as it
would place the city liable for dam-
ages should a fire destroy property
inside the city while the apparatus
was out of town.

This technical fact still exists, but
it is declared that if one of the
school buildings should be afire out-
side the city with 200 or 300 chil-
dren in the country burn up the law
would give a common sense
aid humanity without delay. So
in the future, when in the opinion
of the Fire Chief it is proper to
risk a damage suit within the city
by going to the rescue of burning
property in the suburbs, the chance
will be taken.

ANOTHER LINER.

Six Instead of Five Passenger Boats
to Come Here.

Six instead of five passenger liners
have been allocated to the Pacific
Steamship Company by the Shipping
Board, the first of which, the
Wenatchee, will be put in service in
September, and the second, the Key-
stone State, in November, according
to a telegram received yesterday by
W. M. Cline, district freight and
passenger agent of the Pacific
Steamship Company here. All six
of the ships will be put in trans-
pacific service, four sailing to Yok-
ohama, Kobe, Shanghai, Hankow,
Hongkong and Manila and the other
two to Vladivostok, Shanghai, Dairen
and Tsingtau.

The Wenatchee and Keystone
State are sister ships, launched in
the yards of the New York Ship-
building Company in May. They
have a length of 335 feet over all,
accommodations for 550 passengers
and a speed of seventeen and one-
half knots. Their dead weight is
12,600 tons and their displacement
21,167 tons.

**DISTINGUISHED SERVICE
CROSS FOR GEN. MARCH.**

**AWARD MADE BY PRESIDENT
FOR HEROISM IN PHILIP-
PINE CAMPAIGN.**

WASHINGTON, July 10.—By di-
rection of President Wilson, a dis-
tinguished service cross was award-
ed today to Gen. March, Chief of
Staff of the Army, for gallant serv-
ices in the Philippines. The citation
reads:

"Gen. Peyton C. March, (then
lieutenant in the Astor battery) for
extraordinary heroism in action be-
fore Manila, P. I., Aug. 13, 1898. He
gallantly led a charge on the enemy's
breastworks, volunteers having
been called for by the brigadier
general, commanding."

Largest in Territory.

(BY CABLE AND ASSOCIATED PRESS.)
PEKING, July 9 (Delayed).—Warn-
ing has been given the government
by the diplomatic corps here that
in case of an uprising, there must
be no fighting in this city and that
Peking must not be subjected to
bombardment. Forces commanded
by Tuan Chi Ju, former Premier
and Minister of War, are surround-
ing Peking.

Gen. Wu Pei Fu, who has been
relieved of the command of govern-
ment troops in Chih Li, is near Pao
Yang Fu, thirty miles south of here,
but whether fighting occurs there
will depend, it is said, upon the ac-
ceptance by Wu Pei Fu of his dis-
missal.

Gen. Tuan Ju's threatening atti-
tude is a result of the government's
dismissal of Gen. Zhu Shu Cheng, an
assistant commissioner for inner
Mongolia. He is a leader of the
anti element, which received a de-
feat when the appointment of Chou
Shumu to the Premiership was an-
nounced.

WASHINGTON, July 10.—Ameri-
can forces now in Peking consist of
a legion of 275 marines, com-
manded by Col. Mason Gulick. The
Fifteenth Infantry, the only Ameri-
can army detachment in China, is
in Peking, about eighty miles
from Peking, and could be brought
up to the capital on short notice, of-
ficials said today.

No report of a threatened attack
on Peking has reached either the
War Department or Marine Corps
headquarters.

The American marine guard is the
largest at Peking. The total strength
of the entire international force
there is estimated at 1400 men. In
the event of an attack this force
probably would be commanded by
Col. Gulick.

Japan's guard at Peking is only
slightly smaller than that of the
United States, while England's force
is third. Other countries which have
armed guards there are France,
Italy, Holland and Belgium.

Besides the American Infantry
regiment of about 1000 men at Tien-
tsin, there are approximately 2500
other foreign troops there, accord-
ing to information here. They in-
clude 1100 Italian, 500 British, 750
Japanese and 700 French.

HARBIN, July 10.—Evacuation by
the Japanese of the Trans-Baikal re-
gion is scheduled to begin on July
20, and is expected to be completed
within a month. The Japanese leav-
ing the region will be brought to
Manchuria.

"TIZ" FOR TIRED
AND SORE FEETUse "Tiz" for puffed up, burning,
aching, calloused feet
and corns.

Why do you limp around with aching
puffed-up feet—feet so tired, swollen,
and swollen you can hardly move your
feet in or off? Why don't you get a box of
"Tiz" from the drug store now and glad-
den your tortured feet?

"Tiz" makes your feet glow with com-
fort, takes down swelling and draws the
acridness and misery right out of feet that
ache, smart and burn. "Tiz" instantly
stops pain in corns, calluses and bunions.
"Tiz" is glorious for tired, aching, sore
feet. No more shoe tightness—no more
foot torture.—[Advertisement.]

489 WEST FIFTH ST. ST. 23PARIS COMMENTS
ON DEMOCRACY.Nomination of Cox Repudi-
ates Wilson, They Think.Believes Issues Stronger Than
Are Candidates.Foreign Affairs Secondary
With Democrats, Claim.

(BY CABLE—EXCLUSIVE DISPATCH.)
PARIS, July 9.—The Paris press
generally regards the Cox nomina-
tion as a repudiation of President
Wilson by his own party and an
indication of sentiment in the
United States for confining Ameri-
can interests to American affairs.

The Petit Parisien recalls Gov.
Cox's utterance that the public is
tired of the League of Nations and
fed up on debates concerning it.

Le Martin attributes the nomina-
tion to wet support also to the in-
creasing unpopularity of Mr. Wil-
son in his own party and consid-
ers it significant that Mr. Wilson
not only two votes on the forty-
fourth ballot.

The Echo de Paris says:
"Neither Harding nor Cox pre-
sents a personality strong enough
to attract votes and the doctrine of
the contending parties rather
than the candidates are the issues."
L'Action Francaise says: "Cox
does not live in the shadow of the
White House."

Le Figaro says: "Foreign affairs
do not interest Cox much; he thinks
America has enough to attend to in
its own borders. The League of
Nations does not give him much
confidence, but these opinions the
responsibilities of power are likely
to modify."

Le Journal Des Debats says:
"Whether the victor is a Democrat
or Republican, we can hope that
the United States will not cease be-
ing concerned in European affairs."

PACOMA CANYON DAM
PLANS ARE OPPOSED.LARGELY SIGNED PROTEST TO
SUPERVISORS SUGGESTS
ALTERNATE SCHEME.

Owners of week-end homes in
Pacoma Canyon and other persons
yesterday united in a protest to the
Superintendents against the plan to build
a dam in the narrow of the canyon
as a part of the flood-control pro-
gram. At the same time the pro-
testants stated that every end sought
to be attained by the proposed plan,
and other advantages, besides, can
be gained by the adoption of a sub-
stitute site in the deep, wide and
"otherwise useless" wash below the
mouth of the canyon.

Objections advanced against plac-
ing the dam in the narrow are that
it would wipe out a valuable asset
of that section, deprive the people
of a fine playground and submerge
many substantial improvements; that
the estimated cost of the dam, al-
though \$1,000,000, would be a serious
additional burden on the taxpayers
and, if the State fund is drawn up-
on, then this Los Angeles county
canyon will become a State reser-
voir and not a drop of the water will
belong to the county. There is the
added criticism that a dam at the
narrow would catch the debris of
the reservoir walls, "would take care
of the precipitous sides of the
reservoir would doubtless finish fill-
ing it up and render it useless."

The site suggested below the
mouth of the canyon, the petition-
ers state, would effectively protect
Van Nuys from flood water, would
be practically free from the dan-
gers of debris and disintegration of
the reservoir walls, "would take care
of two bad run-offs not intercepted
at the narrow, would not interfere
with the natural seepage upon which
the valley farmers and this city are
somewhat dependent and, most im-
portant of all, may prove of an al-
litude (which the site at the narrow
certainly would not) which would
permit storage during the dry season
of our surplus aqueduct water—
our most crying need."

The Supervisors are asked not to
adopt the narrow plan finally with-
out investigating the substitute site
suggested, or the "east diversion
channel" recommended by the board
of flood control engineers in 1915
and accepted as adequate protec-
tion."

Signers of the petition include:
H. W. O'Melveny, Arthur Letta, Mrs.
R. L. Craig, W. E. Cummings, E. A.
Grippin, H. P. Dixon, L. W. Rock-
well, Harry S. Folson, F. W. Boy-
nton, F. A. Patten, Mendel Meyer,
Charles E. Richards, Dr. C. G.
Rivers, F. A. Joy, O. E. Weaver,

C. H. Plummer.

Hundred Koreans Drowned.
(BY CABLE AND ASSOCIATED PRESS.)
SEOUL, July 10.—One hundred
Koreans are thought to have been
drowned and 4500 houses flooded in
Seoul, Korea, by the overflowing of
the River Han, according to advices
from Seoul today.

His Hearing Restored.
The invisible antiseptic ear drum
invented by Mr. A. O. Leonard,
which is in reality a miniature me-
aphone, fitting inside the ear and en-
tirely out of sight, is restoring the
hearing of literally hundreds of peo-
ple in New York City. Mr. Leonard
relieved himself of deafness and head
noises, and it does this so success-
fully that no one could tell that he
is a deaf man. This ear drum is
effective when deafness is caused by
catarrh or by perforated, partially
or wholly destroyed natural drums.
A request for information addressed
to A. O. Leonard, Suite 711, 70
Fifth Avenue, New York City, will
be given a prompt reply.—[Adver-
tisement.]

DISPUTES COAL DELIVERIES.
(BY CABLE AND ASSOCIATED PRESS.)
BERLIN, July 10.—The Al-
lied and German conferences in sec-
ond here met at 11 o'clock today
and resumed their discus-
sion of the coal question.

The official statement was issued
after the conference which said that
the German Foreign Office
insisted on the right of the Allies to
move their decision. He said that
the move made it useless for the
Allies to come to a practical solu-
tion of the coal problem.

The situation by a common action
of the government by experts, and
an inquiry in a most sin-
cere and practical spirit.

during the afternoon ses-
sion of the question of coal deliv-
ery was considered by Allied
and German experts. That discus-
sion is continuing at the same
time.

German contentions that the law
of war must be reduced if
the collection of the Berlin govern-
ment was to be avoided were dis-
cussed this afternoon, according to an
official statement.

TUCSON IS AT DEATH-GRIPS WITH UNIONISM.

Arrogant Attempt to Paralyze Great Railway Center of Southern Arizona Precipitates Extraordinary War of Extermination by Nearly Entire City Upon the Powerful Closed Shop and All Its Works.

BY HOWARD C. KEGLEY.
(EXCLUSIVE DISPATCH.)

TUCSON (Ariz.) July 10.—This city is the battleground on which is now being fought the fight that is to break the back of industrial unionism in the Southwest and to forever liberate Arizona from the slavery of the closed shop. While it is an individual war for the freedom of Tucson itself, the struggle is none the less a part of the national movement now manifesting itself in a dozen cities with the goal of industrial liberty.

Rooted out of Bisbee and fired out of Phoenix, the Reds and radical laborers are now about to be turned out of Tucson, their stronghold. The war already has its dead, two fatalities having resulted during the past week from a wave of sickness spread indirectly as a strike of electrical workers and a consequent enforced use of contaminated water. The unionites and their employers are at death-grips, and the whole State is watching the conflict with absorbing interest, Phoenix, which recently unanimously open shop, assisting in the conflict.

Against the forces of labor unionism in Arizona for a quarter of a century, Tucson has declared her independence and a more determined and radical unionism was never waged than that which is now in progress in the great railroad center of Southern Arizona. In the shadow of practically every business house of the city is a large placard which reads:

"We believe in industrial freedom and the open shop for Tucson!"

These hundred business men, representing all the interests of the community, have declared themselves for industrial freedom, and the

of the business life in and around Tucson is solidly opposed to the rampant radical and dangerous doctrine.

And those in charge of an abandoned well pressed it into service in the emergency to provide an adequate supply of water for protection against fires when the system was shut down with less than a two-hour supply of water in the tank, is a mere incident, but it is common talk that damage suits against the city are likely to result and union men who are responsible for the shut down may be made to answer for the epidemic.

After considerable bickering over an increase in wages and an attempt to compel the signing of a contract with the unions, the Central Trades Council directed a well-aimed blow at Frank Russell, manager of the Tucson Electric Gas and Power Company, which operates the public utilities of the community. The unions, organized almost solidly in all other departments, failed in an attempt to unionize the retail clerks in Tucson some weeks ago and then apparently centered on Russell. They first demanded an increase for the electricians, and then sought to tie up the power company with a contract.

CATCH A TARTAR. Russell is a fighter. He has run an open-shop plant for twenty-eight years and he says he intends to run it another quarter of a century if his health permits him to continue in business. When the unions pressed him too hard Russell agreed to pay the wage increase, but wouldn't sign up. The electricians struck. After a brief lull Russell agreed to take the men back and they went back but they wanted to boss the job, he says. A clash resulted and the Central Trades Council called the electricians out one day late in June, leaving the city practically helpless.

Then the worm turned. Trodden upon to the point of desperation for years, the business men of Tucson arose as one man, sent out a hurry-up call for a general conference at the Chamber of Commerce and there, by candle-light, they stood up and unanimously declared Tucson then and forever afterward

an open-shop city. Half a dozen World War veterans, wearing the "Wobblies" button, volunteered to go down to the power plant with Frank Russell and start the Diesel engines. At the plant they found Robert Oppe, one of Mr. Russell's oldest and most faithful engineers, still on the job, and together the men got the engines to going again, normal conditions being soon restored, much to the disappointment of the radical unionists, who had planned and executed the shut-down.

Russell and his crew of volunteer electricians left the hall amid an outburst of cheers. The meeting, which had been called by George F. Kitt, president of the Business Men's Protective Association, was a success.

The city is maintaining a guard constantly at the water works and

which buses union activities here, has been in the habit of notifying business men, who do not accede to its demands, to appear before it for a hearing. "That is carrying things with too high a hand, we think."

FIGHTING MAYOR. Mayor Parker, who has been in office two terms, owns a building in which the union formerly had their headquarters. He says that the night he was elected Mayor they moved out into the street at midnight, and that unionists have since warned him three times that they would "do him" if he did not permit them to organize the municipal employees, but they are still unorganized.

"I will give every man a square deal," says the Mayor of Tucson, "but no man and no organization can dictate to me. We have a few unscrupulous from Phoenix. If it were not for the radicals we could get along happily, I believe."

Speaking of the possibility of an anti-picketing ordinance for Tucson, Mayor Parker said it was impossible under the State Constitution, which permits picketing, and gives men the right to talk to others and persuade them not to go on a job.

"The Constitution of Arizona is L.W.W.," declares Mayor Parker.

There are not enough high-grade officials in this State to hold his office. Taft told us from the Capitol steps in Phoenix that our Constitution is not good and that we were not ready for Statehood. I voted against Statehood once, and I'd do it again."

ON ITS LAST LEGS. That radical unionism is on its last legs in Arizona (and Wobblies at that) is the opinion of G. D. Martin, secretary of the Builders' Exchange at Phoenix, who is now in Tucson assisting the Tucson Chamber of Commerce and the Open Shop Association in conducting a well-organized campaign for open-shop conditions there.

Mr. Martin is a general contractor at Phoenix and having played a prominent part in the establishment of open-shop conditions there six or eight months ago, he is a position to speak with considerable authority on the subject of industrial freedom in Arizona. As far as Phoenix is concerned, he says the unions are utterly crushed.

The breaking up of radical labor unionism in Arizona dates back to the Bisbee deportation, when several hundred "undesirable" citizens were loaded into cattle cars and

Rending from Arizona the Shackles of the Closed Shop.

John B. Wright, President, Tucson Open Shop Association.

Frank Russell, manager of the Tucson Electric Gas and Power Co. center of the union fight.

We Believe in INDUSTRIAL FREEDOM and the Open Shop for Tucson

Leaders in the War of Tucson, Ariz., for Her Industrial Liberty.

tion, laid the case before the business men and upon motion of George T. Fisher the Tucson Open Shop Association was immediately organized, with John B. Wright, a prominent attorney, as president, L. O. Moore, secretary, and Mose Drachman, treasurer.

ORGANIZE TO FIGHT. With the creation of a permanent organization, the list was headed by the banks, Charles E. Walter, vice-president of the Consolidated National Bank, being the first to sign. He was followed by Mose Drachman, treasurer of the Tucson National Bank, and W. E. Fuller of the Security Bank.

The newly formed association then selected the following Executive Committee:—J. Cress Myers, Restaurants—J. J. O'Dowd, Builders' Exchange—M. L. Top-hay.

Physicians—L. E. Hoffman. Engineers—Bruce Ellis. Architects—H. O. Jaasted. Real Estate Dealers—Herbert Drachman.

Tucson Motor Trades Association—C. E. Goette. Chamber of Commerce—George T. Fisher.

Attorneys—A. I. Winsett. Banks—Mose Drachman. Young Men's Business Association—Orville H. McPherson.

The open-shop movement was born by candlelight in Tucson. It now has about 200 members. Practically every business house of any importance in the city is placarded for the open shop, although the unions declare they intend to post their own placards within a few days. They say they will put every business man on record, for or against them, as a guide for union families to shop by.

Off from the main business district of the city is the old Mexican quarter, with which a goodly number of Chinese stores are inter-

mingled. Many of the Mexican stores are already displaying the open shop placard, and it is reported that the Chinese have telegraphed to their consul in San Francisco, asking for advice as to what stand they shall take.

It is understood that they lean toward the open shop, but are just a little fearful that "black-jacking" may be resorted to by the radicals. One prominent Chinese merchant gave the Tucson Chamber of Commerce to understand that the Chinese will declare for the open shop if assured of adequate police protection. Mayor O. C. Parker, a life-long Arizonian, says the police department stands for law and order and will maintain it at any cost.

GUARD UTILITIES. The city is maintaining a guard constantly at the water works and

But the fight is likely to continue for some time, Tucson business men believe, although they are united in the opinion that they will eventually win a decisive victory. It is a matter of bringing in perhaps several hundred free workers they think.

Just now the situation is quite acute from a business standpoint. The unions say that out of 25,000 population they have 1500 families in the city. These families have access to an out-and-out closed shop chain store—one of a string scattered all over the country. This furnishes them their general merchandise. For groceries they have their co-operative store, which is steadily under open-shop conditions.

WORKERS NEEDED AT TUCSON. Tucson, Ariz., needs skilled workers in nearly all branches of the trades. Albert H. Condon, secretary of the Builders' Exchange in Tucson, says the community's building program for this year, which is likely to be retarded somewhat by the industrial trouble, calls for a great number of skilled workers.

A \$1,000,000 hotel, a new home for the Elks, a magnificent apartment-house and half a dozen other civic or public buildings will be built as soon as labor can be secured. The going wage, as given by Secretary Condon, is as follows: Carpenters, \$9 a day; bricklayers, \$10; plasterers, \$9; plumbers, \$9; cement finishers, \$9, sheet metal workers, \$8; electricians, \$9, painters, \$8, with the prevailing wage in other branches of the industries proportionate.

Living expenses are not excessive in Tucson. Rent for ordinary dwellings is about the same as in Los Angeles. The prices of food compare favorably with those here or at San Diego.

The Central Trades Council,

There are all kinds of Reed Furniture, but there is just one REEDCRAFT. Sturdy, practical and "uncommonly beautiful"—REEDCRAFT is always dainty, always comfortable, always lasting. Although usually shown in the rich, warm, REEDCRAFT lends itself to any number of color effects. The new iridescent gold finish is an exclusive REEDCRAFT creation.

of the Scars of France.Pleads that American Dead
Shall not be Removed.Tour of Old Front World's
"Most Wonderful Trip."

A plea that American soldiers who died in France shall be permitted to rest in the soil they defended is contained in a letter received yesterday by Capt. J. E. Frymier of 3101 Arlington avenue, this city, a Civil War veteran, from his daughter, Mrs. Mary F. Murphy, who is in Paris after a tour of the French battlefields.

Mrs. Murphy wrote in part: "I have just returned from a twelve-day auto tour of the battlefields of France, and no words can adequately describe what I have seen. I believe it is the most wonderful trip in the world today—more so than any other. I wish every American could afford to take. Imagine traveling from New York to Chicago, then back over another route, and seeing, not ten or twenty, but every city, town and village demolished, the open country between pitted with shell holes and bomb craters and furrowed with trenches and 'dugouts,' and whole forests destroyed by gas fumes and artillery fire. Such dramatic, thrilling, awe-inspiring devastation I never dreamed of!

"It cost thousands of lives and billions of dollars to accomplish such gigantic destruction. It is marvelous to think it was accomplished by the brain and hand of man. No flight of the imagination could ever picture to the mind what is to be seen on the battlefields of France. It is worth traveling weeks for one day's view of it. In fact, in one day my emotions were so overwrought that my mind was almost incapable of receiving more impressions. Into twelve hours you can crowd more thrills than the world ordinarily has to offer in a life-time—the greatest struggle in the history of the world made tangible, not by printed words or pictures, but by the testimony of one's own eyes.

DESOLATION.

"I could write for hours, were I not afraid of tiring you of the things I have seen—of miles upon miles of barbed-wire entanglements; of camouflaged roads—wire netting with branches of trees arching across roads for troops and ammunition wagons to pass under; of the 'trenches of bayonets,' where bayonets and gun barrels stick up out of the ground in a communication trench so narrow that when the guns blow the walls in on the men who were there, they died standing, with their rifles in their hands; of towns so shattered that even the sidewalks have been reduced to powder; of the pulverized bricks and stones of the former houses so mingled with the natural earth, you would never know there had ever been a town there, except for the sign boards. This was the town of so an 'old' church with a shattered altar and crucifix and headless saints clinging to crumbling, roofless walls; of groups of poor peasants, accompanied by an official with plans of the village, trying to locate their home sites among all the debris and ruins of the battle; of wooden crosses along the roadside; of our tremendous, beautiful American cemeteries, every cross a crucifix for some woman's heart.

"I can't say it to these women over here who have suffered and lost so much, but to me the American woman's sacrifice was the greatest sacrifice of all. Her husband was not being financially ruined, her daughters dishonored or her home invaded, but she sent forth her sons to die in a foreign land, not in self-defense, but in answer to the call of conscience.

LET THEM REST!

"These bodies, these crosses, should not be moved if the American mother would make her sacrifice complete; they should not be dug up and scattered and lost to the world, to satisfy individual family pride of one generation.

"They should remain as they fought, together, an everlasting testimony to future generations of American heroism!

"I hope I haven't made you feel, by my poor description, that the scenes are too sad or too gruesome for you to wish to see them. I only know that my visit to the battlefields of France has stirred me more deeply and brought me closer to the heart of the world than the greatest drama I have ever beheld, the greatest book I have ever read or the greatest painting I have ever seen.

"Within a year the hand of God and the hand of man will have obliterated much of the devastation. Industrious peasants have cleared their fields of barbed wire and bombs and filled in shell holes and trenches and planted grain over it all, while patient, industrious nature is rusting and disintegrating what the peasant fails to remove and is covering with verdure the spaces he has failed to plant. Charity and enterprise are rebuilding the towns as fast as insufficient man power will permit.

"Are they rebuilding, I wonder, only to be demolished again by a new Germany in another forty years? These poor souls have had their homes, their farms, their household goods, their means of livelihood, their families, their friendships, their neighbors, their habits, their happiness, all wiped out by gunfire; but their sorrows, their poverty, their illnesses, their unhappiness remain.

"Man's inhumanity to man."

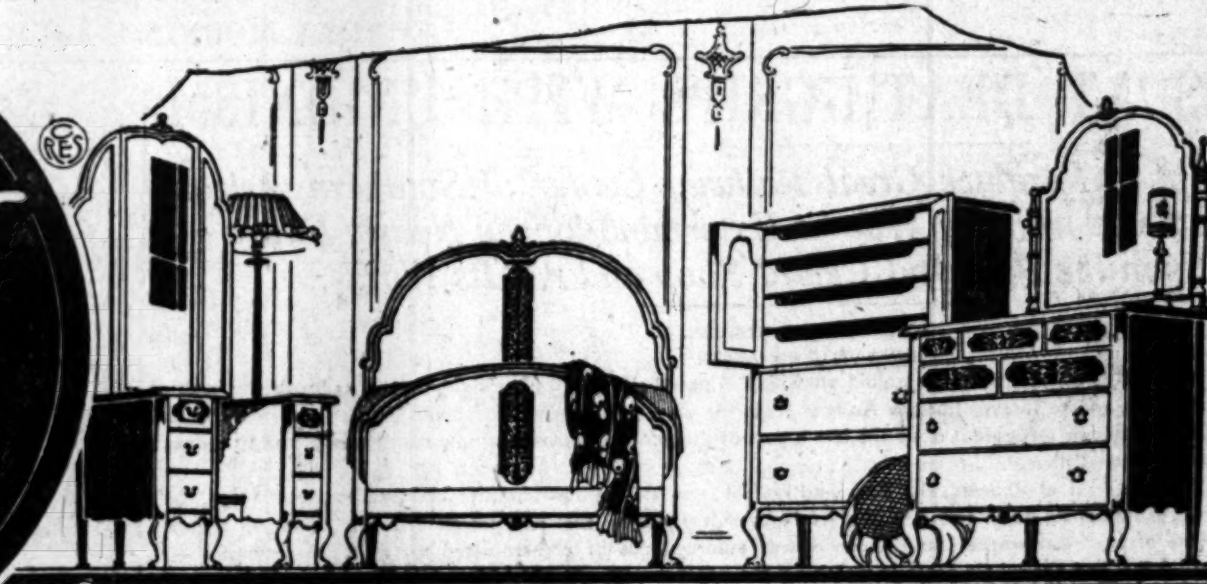

COUNCILMEN TO HEAR
TAXI STAND DISPUTE.

The Public Safety Committee of the City Council, of which Councilman Sanborn is chairman, will give a public hearing at 1:30 p.m. Tuesday at the City Hall on the proposed amendment to the traffic ordinance to permit stands for taxicabs and sightseeing buses to be maintained in the congested district of the city.

The Business Men's Co-operative Association and the retail dry goods merchants of the city are opposed to the amendment but the hotel owners and taxi men maintain that "for hire" automobiles are a public necessity and point out that stands are permitted in all other cities. The Board of Public Utilities heard arguments on both sides last week and will doubtless make recommendations to the Public Safety Committee.

MEXICO AFTER MEZTA CASH

Judge Bledsoe yesterday signed an order for summons by publication, in the action brought by the Republic of Mexico against the Los Angeles Trust and Savings Bank and Manuel Mesta, former governor of the southern division of Lower California, to recover \$15,000 alleged to be in possession of the bank. The order was signed by Judge Bledsoe and was regularly and legally declared by Governor Mesta. They were allowed to depart and took up quarters in this city. It is set up that Mesta left here about May 28, and when last heard from was in Washington, D. C. It being impossible to get service on Mesta, the order for publication was secured.

The order signed by Judge Wiese yesterday was based on an affidavit of Edward Ruiz, the Mexican consular agent in this city, to the effect that Mesta has disappeared and is not to be found within the

These attorneys filed a suit in the U. S. District Court at San Antonio to recover the money. It is supposed to be a part of the fund brought to this city on May 20, when Mexico was declared an enemy of the United States from the revolution in La Paz, and from the Mazatlan al Los Angeles Harbor. The money was met by customs and other federal officials and money in the amount of \$150,000, or about \$80,000, was placed in the custody of the bank that has been made a party defendant to the suit to recover the money. The bank is in any way involved.

FORM NEW NAVAL DIVISION.

The first active Navy division in Southern California to be organized, consisting of prominent young business and professional men who are

W. in the Naval Reserve, was com-
mended yesterday, according to a re-
port submitted by Lieut. H. S. Ryer-
son, U.S.N.R.F., to Commander A. H.
Goodbine, in command, and Lieut.-
Commander Frank R. Seaver, execu-
tive officer of the Southern Califor-

The division is composed of 110 enlisted men, many of whom served in the U.S.S. St. Louis during the war. Lieut. Hammond, U.S.N., who served as a mine sweeper in the North Seas during the war, informed Lieut. Ryerson that he would bring Ryerson with him in charge and Lieut. (junior grade) Channing Pollette, will be executive officer.

Other divisions are now being organized by other officers in Southern California as part of the training which the Naval Reserve men and officers are planning to take. Several

Whippoorwill to Southern California within the next few months for the purpose of going on training destroyers will soon become available for service of the Naval Reserve.

This detail shows the upper portion of the manuscript page. It includes the top of the column, which is decorated with a series of horizontal lines. The text begins with the word "Sicut" in a large, ornate script.

PRESS ROAD BOND PETITION

Thirty Thousand Signatures Must be Secured Here Before Next Wednesday.

In order to place the proposition on the November ballot, 30,000 signatures must be obtained in Los Angeles county alone before next Wednesday. Altogether 75,000 signatures are required.

The petition provides for the initiation of a law to continue the State highway construction program by allowing the State to raise

the interest on the last bond issued to a maximum of 6 per cent. At the present legal rate of interest the bonds do not compete with other securities.

If the State fails to carry the road bond initiative, it must forfeit the \$5,000,000 of Federal money appropriated for road construction, and work on highways in various sections of the State will have to be postponed indefinitely.

The Automobile Club of Southern California has been active in distributing copies of the initiative petition among all of its branch offices, and elsewhere, in order that the question can be submitted to the voters. The Supervisors of the various California counties have been most energetic in securing signatures, and the Chambers of Commerce all over the State have done excellent service in getting signatures.

Word was sent out yesterday by the Los Angeles Chamber of Commerce to all commercial and civic organizations in the county that failure to place this measure on the November ballot will mean huge financial losses to the State in road construction work and will greatly endanger the prosperity of ranchers in the rich farming sections of the Southland who depend upon Los Angeles as a market for their early fruits and vegetables.

N. D. Darlington, State Highway Commissioner, stated yesterday that too much importance cannot be attached to the signing of these petitions, which provide for the legalizing of a rise in the interest rate on the State highway bonds now unsold. He further stated that money derived from the sale of the bonds will be devoted to highly important work in this section. A part of it will go toward the completion of three trunk lines forming part of the transcontinental highway, one on the road to Yuma, another to Needles and another, a part of the national highway. Three million dollars in road construction work in Los Angeles county and \$10,000,000 worth of trunk highways will be lost to this section if the issue fails to carry. This represents only a part of the loss that the county will suffer if voters do not sign the petitions in sufficient numbers, as under the law, Los Angeles county, after July 1, will save \$98,000 annually in interest. Also, unless the interest rate is raised and the bonds sold, the county will lose its proportion of the \$5,000,000 appropriated by the United States government for carrying out the State highway construction program. This money cannot legally be used unless the State consents to spend an equal amount in road construction.

The Chamber of Commerce is especially pointing out the importance of completing the State highway through Coachella and Imperial valleys to Yuma. The ranchers of this section have been promised highway improvement for years and when the bonds finally were voted for this designated purpose, the rate of interest allowed under the State law was placed so low that the bonds were found to be unsalable. The initiative petitions are being circulated to relieve this situation.

HID UNDER TABLE.
G. F. Parvis of Long Beach was granted a divorce yesterday by Judge Crall, when he and other witnesses testified that his wife, Mrs. Dora M. Parvis, had been indiscreet with another man. He said he hid under a table and heard his wife tell of her affairs to other persons. John E. Squires was named as co-respondent in the divorce action.

RULES WIFE MUST COOK.
Mrs. Nellie Beidler refused to cook for her husband, S. R. Beidler, or make his bed or attend to any household duties, the husband testified yesterday in Judge Crall's court. He was granted a divorce.

ANCIENT TOOTHBRUSH, POWDER PUFF FOUND.

ONE IS A STINGAREE'S JAW; OTHER A STONE USED BY CATALINA INDIANS.

A toothbrush made of a stingaree's gills and a powder puff of stone-toilet articles used by Pimung Indians on Santa Catalina Island generations before white men introduced the standard drug store articles there—have just been unearthed by Ralph Glidden in his research work on the island for the Hays Foundation of the American Indian.

Both relics of aboriginal vanity were found among other household treasures in chiefdoms' graves. The toothbrush resembles the modern article of commerce very much in size, shape and color, though the bristles are only the gill fibers attached to the jawbone of a stingaree.

The powder puff, on the contrary, would seem a trifle rough to a modern flapper. It looks like the present bit of down, but feels more like a lump of lead. It was used to crush the ochre with which the Indians beautified themselves in the absence of talc and rouge.

That the Indians of the Channel Islands paid careful attention to their teeth is proved by the evidence of their skulls, which Mr. Glidden has found in large quantities. Among hundreds of skulls unearthed in the past three weeks practically all had the teeth intact. The few exceptions were evidently the remains of squaws who lived to be more than 100 years old. Mr.

BANKER PASSES ON.

Annual Visitor to Southern California Dies in Indiana.

Allan Gray, president of the Citizens' National Bank of Evansville, Ind., and an annual visitor in Southern California for many years, died Friday at his home in Evansville.

Mr. Gray, who was the brother of W. W. Gray of Berkeley Square, Los Angeles, and of Harry Gray of 30 Oak Grove avenue, Pasadena, was for several years financially interested in many of the large projects carried on in Southern California by his resident brothers.

The funeral will be held tomorrow at Grayville, Ill. Both Harry Gray and W. W. Gray are at present in Evansville, where they were called when their brother's illness became acute. Word of Allan Gray's death was received by Mrs. Harry Gray in Pasadena yesterday.

ONCE WAS ENOUGH.
Charles F. Johnson, manager of a branch office at Honolulu for a large manufacturing company, told his wife, Mrs. Agnes Johnson, that he could not get along without the other woman, the wife testified yesterday in Judge Crall's court. She said she forgave him once and returned to live with him, but he broke a promise to stay away from the other woman. She was granted a divorce.

OUR CLIMATE WRECKS HOME.

Husband Likes It, but Wife Wouldn't Come: He Gets Divorce.

Climate interfered with the marital bliss of M. Cone Mazzone, a Los Angeles business man, and his wife, Mrs. Marie M. Mazzone, he testified yesterday in Judge Crall's court. He said his wife refused to come here with him from Providence, R. I., which city he left because of the cold weather. He sent her money to come West, but she refused it, he said. The court granted him a divorce.

JOHNSON ESTATE.
So long as Mrs. Anna L. Johnson, divorced wife of the late Daniel C. Johnson of Pasadena, lives, the decedent's estate will be held in trust for the benefit of two children, Daniel M. Johnson, aged 30, and Grace G. Johnson, aged 13, according to the terms of a will filed for probate yesterday. The estate is valued as in excess of \$10,000. The estate, according to the will, will be divided for the children upon the death of the mother.

PATHETIC APPEAL.

Stricken Mother Asks Boy, Here, to Return to Her.

Ferruccio Zucca, aged 17 years, is wanted by his mother, who, according to a letter received by the Los Angeles Juvenile Bureau, is in a critical condition in a hospital in San Francisco as a result of a serious automobile accident.

According to the letter, the boy's father is dead, his brother is not expected to live, his sister has had her arm amputated and two other children not related to the family may not live as a result of the accident. Their names were not given.

The boy, the letter stated, is known to have come to Los Angeles some time ago and is either working in the city or on a ranch in the vicinity of Los Angeles. Juvenile authorities have instituted a search for Zucca here, as the mother is near-broken.

ATTEMPTS SUICIDE.

City Jail Prisoner Tries to Hang Self in Cell.

Jumping from a cot in his cell at the City Jail with one end of a rope improvised from a blanket knotted around his neck and the other end tied to the top bar of the cell, Ray Johnston, aged 27, who was arrested July 5 by Detectives Rice and Gibb at First and Los Angeles streets, attempted to end his life by hanging himself.

He was unconscious when discovered by Jailer A. C. Christensen, who took him to the Receiving Hospital where he was revived. Police Surgeon Dorr said the man had been a drug addict.

AT MILE A MINUTE.
Failing to escape his pursuers, though he speeded down Sixteenth street, according to Head Police Chauffeur Frank Schreiner, who arrested him, at sixty miles an hour, Marcia Austin, a negro chauffeur, was taken into custody and lodged in the City Jail in default of \$250 bail yesterday afternoon.

TO SEE HARBOR.
The members of the City Club will inspect Los Angeles Harbor on July 31 as guests of the Chamber of Commerce of Wilmington and San Pedro, Mexico.

The Choice of a Watch

A good watch should give a lifetime of service. Therefore select it as you would choose a friend. The safest method is to be sure of the integrity of the house from which you purchase the timepiece. Nordlinger watch merchandising covers more than a half century—five decades of conscientious, satisfactory service.

We offer the best productions that Europe and America afford.

Closed All Day Saturday during July and August.

A New Table Water!

is ready for your delectation—pure, sparkling spring water—just as it comes bubbling from the rocks of Laurel Canyon

Laurel Springs Water

awaits a welcome into thousands of Los Angeles homes that are thirsting for a delicious, natural spring water! It is as refreshingly satisfying as the delightful quaffs that come from the clear, limpid pools in the furthest mountain recesses.

An analysis of Laurel Springs Water shows it to contain only those minerals that are necessary to the "ideal drinking water"—the elements that Nature, thru her perfect filtration saw fit to put into it.

Table Size Bottles

Laurel Springs Water is bottled and sealed at the Springs in Laurel Canyon in attractive table-size bottles which may be kept on ice until ready to serve at the table. A crate of four bottles is sold for fifty cents or a five dollar coupon book entitles the purchaser to twelve crates of water.

Telephone your orders to the

Laurel Springs Water Company

Bayonets Point to Bright Future.

Gen. Ulysses Grant McAlexander.

Photographed from an original drawing made of the "Rock of the Marne" at Paris.

WAR HERO LAUDS AMERICA.

Gen. Ulysses Grant McAlexander, "the rock of the Marne," whose lithe command broke the German tide of invasion before Chateau Thierry and who is now resting at Santa Monica after nearly a year's detail at the War College in Washington, declared yesterday that, despite all post-war clouds, America's future shines with high promise in the light of the splendid performance of our soldiers in Europe.

Three through which we are now passing are only the aftermath of a great disturbance, he said. The qualities that bore American men triumphantly through battle, declared the general, will carry the

nation onward surely and magnificently.

For him American power is typified by the Thirty-eighth United States Infantry, which, under his command at the second battle of the Marne, "accomplished the impossible" and held fast against an overwhelming force of advancing Hun.

POWER DEMONSTRATED.

"A man has to have mighty superior stuff in him to make a good soldier," Gen. McAlexander observed. "America's record in the war is answer enough as to whether or not this country will reach the

and disastrous San Francisco migration, offers one of the really fearful spectacles of the present campaign. There is, of course, a showy pretense about them of being delighted over the Cox victory, but the happenings of the Bourbon convention that came to public view are sufficient to nail this transparent fiction. Neither Collector Elliott, Collector Carter nor Lorin Handley has any special reasons to muse happily over the outcome, as I see it. Their ten days' job of holding too tightly the McAdoo sack was arduous at best, but since they were

convicted of that unpardonable sin of picking a loser it is not difficult to understand why their position with the Cox crowd should be about as valueless as German currency west of the Rhine.

Lorin Handley since coming home to the City Hall has not more than whispered his real feelings to his bosom cronies, for Lorin suffered with his other McAdoo bed-fellows, and punishment at one time or another is sure to fall. His prohibition enforcement job is some consolation; but from a Cox regime, should one land in Washington after March 4, next, neither Handley, Carter nor Elliott need hope for a crumb. Rewards are not given to valueless Democrats when there are faithful Democrats to serve.

I have heard not a peep from Collector Carter since the return from Waterloo, but by his fellow-brigade, John Elliott, was issued a nice piece of political hokum to signalize ingenuit on occasion, but in this particular writing his resourcefulness is not apparent. He gave it out to the newspapers last night, but in this talk about a Bryan defection over the wet affiliations of Gov. Cox is pure vaporing. No more spots in the campaign, but in this regard, according to John, developed, but a delightful, self-sacrificing homologue instead. The satire Collector of Customs, of course, has completely overlooked the pathetic figure of the Great Commoner, sinking home from Nebraska from the dry rout, but nevertheless with a few odds and ends of lardite in his system, awaiting the favorable moment in the campaign to explode.

William Kent, candidate for the nomination for United States Senator whose managers have been making a strong bid for the Red and radical vote, seems to have developed some of this same spirit in charging a Wallace-Craig plot to undermine him in the South. Joe moving along briskly with his Republican Central Committee work, showing not a blink of concern, and the probability is that the Kent people, seeing that little can be gained by petty backbitings, will lapse into silence along this line. The shortridge forces are also disposed to make light of the matter, being entirely willing to have their candidate come his vote-getting to the customary channels.

At the conference of Republican clubs in Pasadena next Wednesday to determine which of the Republican candidates for the Congress nomination in the Ninth District should be endorsed to oppose Handley, I hear that the withdrawal of Monrovia may be announced. Mr. Flowers takes the broad view that not only should harmony reign in the party ranks, but that the candidate to receive the united Republican backing should be exactly the type of representative that Randall has shown himself repeatedly not to be able, conscientious and fully alive to the country's needs. I take it that he stands on the issues involved will be heartily approved, but I am not sure that his friends will fully agree with his self-elimination.

In connection with this conference, I hear that friends of C. H. Prisk, the Pasadena newspaper publisher, are urging him to enter the primary contest in the Ninth District. Prisk has shown himself to be anti-Handley, but I did not know that the Congress bee had been singing in his ear and I am not sure that his ear is receptive.

Not much opposition to the return to the bench of the ten incumbent Superior Judges seeking reelection is likely to develop among the lawyers, who recently took a plebiscite of the county bar. It seems that since this poll was taken no organized opposition has been attempted, and without organization

it would be difficult to make any headway. Within the next week or so most of the judicial candidates will have their nominating petitions ready for filing, and then the issue will go to the people. Petitions will be filed this week, I am told, for Judge Charles Monroe and Grant Jackson, both of whom have good records on the bench, and the others will come quickly along.

Attorney Ruben S. Schmidt, who seeks a place on the Superior bench, is the first of the outside candidates to submit his nominating petition to the registrar of voters for checking. He is out for the long term. Friends are making an active canvass for him, and he seems to be good material for the bench. He is a native son and a life-long resident of Los Angeles.

Frank Rouse, who is connected with Joe Craig's law office, has actively entered the race for the Assembly from the Sixty-fourth District. He will make the race against Leonard O. Hall and former Assemblyman Harry Lyons. Rouse was a lieutenant with the field artillery in the recent war, and was formerly minute clerk in the Assembly, and assistant secretary of the Senate. Hall is a civil engineer, and was once connected with the City Engineer's office. He made the race for the City Council four years ago, but was noosed out.

I've been floating around the hotel lobbies lately sizing up those of the Bourbon phalanx that hid down here after the Ray City fireworks, and I take it that more than a brief stay in our local sunshine will be required to heal some of the scars. Mixed feelings show up on the countenances of these Bourbon pilgrims. For instance, the Georgians and Texans that trooped through our municipal gates registered deep

sadness and chagrin at mention of Bryan's sad fate, while the Tammany brigade, headed by Chief Clerk Charley Murphy and Gov. Alfred Smith, beamed like a burnished aurora when the conversation turned to Cox, but soft-pedaled when their liking for the Roosevelt fall to the Democratic side was discussed. Clearly, the judgments of the Bourbon carnival were not pleasing to all.

ASILOMAR FOLKS TO GATHER AT DINNER.

A dinner to stimulate interest in Asilomar is to be given by the Y.W.C.A. in the association building next Tuesday at 6:15 p.m. Guests will include a group of twenty or more young women who have registered for the summer conference at Asilomar, August 6 to 16, and many who have attended former conferences there.

An invitation to attend the dinner is also extended to all women and girls who might be interested in making the trip to Asilomar this year under the auspices of the Y.W.C.A.

IT KEEPS HIM BUSY.

Henry Rief, registrar of births and deaths at the city health office, leaves tomorrow on his first vacation since 1915. Although entitled to two weeks' vacation each year, Mr. Rief has found work so pressing that it has been impossible for him to take them. Before 1915 he had not taken a vacation since 1909.

Drink "Laurel Springs Water" for your palate's sake! Telephone Main 1814.—(Advertisement.)

IN GOVERNMENT EMPLOY.

The United States Civil Service Commission announces the examinations named below to be held at an early date. Application blanks and further information may be obtained from the local secretary, room 618 Federal Building, Assistant Examiner, Patent Office (male and female), \$2440 per annum; senior architect (male and female), \$2240 to \$2760 per annum; scientific assistant, \$1740 per annum; senior instructor (male and female), \$1740 to \$2000 per annum; guard, penitentiary service (male and female), \$1540 to \$1740 per annum; assistant in citrus quarantine (male and female), \$1440 to \$1640 per annum; physical laboratory helper (male and female), \$1440 to \$1640 per annum; automobile mechanic's helper at Washington, D. C. STARTING JULY 1. Frank's Cafe, 6000 Hollywood Boulevard, will keep open from 7:30 a.m. to 3 a.m. in accordance with the new ordinance.

JUSTICE OLNEY HAS NO OPPOSITION YET.

IS CANDIDATE FOR TWO-YEAR TERM AS ASSOCIATE OF SUPREME COURT.

Justice Olney of San Francisco, who was appointed to the State Supreme bench in February of last year, has no opposition in his candidacy to succeed himself and to fill a two-year term in the Supreme Court.

Born in San Francisco and educated at the public schools of Oakland and at the University of California at Berkeley, Justice Olney has always lived in this State. For a time he was a member of the faculty of Hastings College of Law, and later he founded the School of Jurisprudence at Berkeley. He resigned from the Board of Regents of the University of California when he was named to the Supreme bench last year to fill the vacancy caused by the resignation of Justice Sloss.

During the World War Justice Olney was a member of the State Registration Bureau, and was chairman of the Federal Censorship Board for the Northern California district under the Draft Act.

FRENCH BRIDE SUES, CHARGING DESERTION.

Mrs. Marcelle Marie Wilhelm, who married Whitney E. Wilhelm, a soap salesman in France last December 2, yesterday filed suit for separate maintenance. She charges that he deserted her six months after the marriage and has failed to support her. Though Wilhelm was formerly a soldier he was a civilian when he was married. The complaint was filed by Attorney Jesse R. Shafer.

Boot of white nubuck with welt sole. A sensible military heel. This is a shoe with good unequalled service and is a splendid value at **\$6.85**

Chotiner's

FINE FOOTWEAR. 551 So. Broadway.

Careful parents not only find the best values, but can be assured of a perfect fit in shoes for growing children always at Chotiner's.

To Overcome Redness, Tan, Freckles, Blisters

If your skin is unduly reddened, tanned or freckled, just dab a little pure, mellowed wax on the face and allow it to remain over night. When you wash off the wax in the morning, the entire outer skin is absorbed, but so gradually and gently, there is no irritation, heat, or discomfort. Even the stubbornest freckles are affected. The underlying skin which forms the new complexion is an even, fresh, and youthful-looking, you'll marvel at the transformation. It's the only thing known to actually discard an aged, faded, mottled or blotchy complexion. One source of moisture, is procurable at any drug store, is sufficient in most cases.—(Advertisement)

FOOD PACKAGES BOON TO POLES.

Los Angeles Donors Informed of Cases Handled.

Starving Mothers and Babies Saved by Charity.

Whole Resources of Country Used to Beat Reds.

From Warsaw, Poland, has come a letter telling of the splendid use being made of the \$630 raised earlier in the year by the Friday Morning Club by means of a benefit tea given to forward the work of the American relief administration in Poland. The letter is from Mrs. Adeline W. Fuller of Warsaw to Mrs. Frank Baleski, 1441 West Carroll avenue, and was mailed from the Polish capital on June 7.

Funds raised by the Friday Morning Club were used for the purchase of sixty-three \$10 food drafts, each of which is exchangeable at Warsaw for one class "A" food package. "I am using these food drafts for individual relief among the children here who have suffered by the war," writes Mrs. Fuller. "and each recipient is told that the gift comes from the generous American friends of Miss. Faderewski."

PROMISES FULL REPORT. "Our organization is giving one dinner a day to 1,200,000 undernourished and poverty-stricken children in Poland. Many of them have no other food from day to day, and it is families of this class that we are giving these sixty-three food packages, after each case is individually investigated. I shall send you an individual report on each of the sixty-three so that you may inform the donors how their welcome gifts are being used."

The first four cases relieved by the food drafts from Los Angeles are then described as follows: "Case No. 1.—Mrs. Matuzewski has seven children ranging in age from 18 years to 11 months. They live in one clean but miserable room. The husband supported the family until the first of the year. He then contracted typhus, and in a moment of delirium wandered away and has never since been heard of. The oldest child earns 100 marks a month—equivalent in purchasing power to about 16 cents. The other children are too young to work. At home they have had nothing but potatoes to eat, and the mother and baby are both ill. Your food package provided them with the first white flour and bacon they have tasted since the war, and with real milk for the baby."

CARES FOR WAR ORPHANS. "Case No. 2.—Alexandra Prokofowa was a volunteer Red Cross nurse during the war. She has lost all her possessions, and is now too old to do much work, but nevertheless has been giving shelter in her wretched dwellings to three war orphans. We give the children one meal a day, and have given her a food package for herself, and to help provide a second meal for the orphans."

"Case No. 3.—A family consisting of a mother and four children, who lost their little all in a fire a fortnight ago. The father was killed in the war, and the mother has been ill from under-nourishment, and has been able to work only spasmodically. We hope this food will strengthen her so that she may become self-supporting."

"Case No. 4.—This family was also burned out recently. The father went to France six months ago to perform factory labor, but has never written home; all trace of him has been lost. The mother has been supporting her small children by doing washing. I wonder if you know what that means? There is no water in or near the place where she lives. She carries it for several blocks. And then she has to wash without soap, for soap is not to be had. When she finishes the exhausting task, the pay is only in potatoes."

Other drafts for food packages have been sent to Poland since the Friday Morning Club forwarded its donation. The Woman's Needlework Guild sent 2500 last month.

"The Poles can do very little for themselves until the Bolshevik question is settled," concludes Mrs. Fuller. "Every ounce of their energy and every penny of their money is being used to fight the Reds—and that is our fight as much as it is theirs. Until the army can come home and go to work the rest of the world should help to keep alive the coming generation of Poland."

NEED ONLY ONE STRIP FOR TRUCK BOULEVARD.

HIGHWAY FOR WILMINGTON HIGHWAY IN PROGRESS.

Announcement that a complete right-of-way, with the exception of one small strip, has been obtained for the Harbor Truck Boulevard, linking Los Angeles with Wilmington, was made yesterday by Supervisor McClellan, chairman of the County Roads Committee.

Only one crossing, now controlled by the Southern Pacific Railway, is needed to remove the last obstacle in the path of the big highway project, and Supervisor McClellan has received assurances that this right of way will be granted within a few days.

Already 2.4 miles of the highway has been completed from the southern limits of Compton to Webber street. The Board of Supervisors will advertise next week for bids to complete a section of about two miles from the Los Angeles city limits to Compton. Thereafter, according to Mr. McClellan, the work will be rushed to early completion and will connect the city of Los Angeles with Wilmington at a point which joins the highway to be constructed by the city from Terminal Island.

The Harbor Boulevard, which will be provided by county funds, will consist of one of the best pieces of concrete road work in the State. It will be an eight-inch to twelve-inch reinforced concrete pavement on a six-inch disintegrated granite base. It is the opinion of Mr. McClellan that this type of roadbed will be of sufficient strength to carry the greatest volume of traffic. The road will be built by the Harbor Beach for freight and trucking purposes.

Big Special Term Sale

—of—
Washers, Sweepers and Ironing Machines

500—Electric Washing Machines—500

500—Electric Vacuum Sweepers—500

50—Ironing Machines—50

EASY TO TALK YOUR SKIN WITH POSLAM

Under the special committee of the City Council to which was referred for consideration the proposed contract between the city and the Salt Lake railroad to permit the slicing off of the Terminal Island lands of the company in order to widen the channel, has declared that the present contract is objectionable and must be revised and amended.

Chairman A. P. Fleming of the committee announced yesterday that the committee is also considering the advisability of recommending condemnation proceedings which would entirely eliminate the necessity of a contract.

Harbor Engineer Franklin in his report to the Council on the contract recommended that condemnation proceedings be substituted for a contract, and in an opinion given to Chairman Fleming yesterday City Attorney Burnell stated that such proceedings in fixing the compensation to be paid to the Salt Lake Railroad are entirely legal and feasible and he outlined the necessary procedure should the Council prefer such proceedings to a contract.

Under the contract the city is to give to the Salt Lake road in return for its land destroyed by dredging thirty-six acres of Terminal Island from which the city is to receive no revenue. Mr. Fleming stated yesterday that he believed that

under condemnation proceedings the city can secure \$15,000 a year rental from the road for this land.

FOR HIGH BUILDINGS. Works Board Wants Restrictions Taken Off Industrial Structures.

A charter amendment which would remove all restrictions on the height of industrial buildings, particularly grain elevators and factories, was proposed yesterday by the Board of Public Works in a communication to the City Council.

At present the height of all buildings in Los Angeles is limited to 150 feet and the board says that this restriction tends to prevent industries from erecting suitable buildings here.

The Globe Grain and Milling Company recently desired to build a grain elevator 208 feet in height, to cost about \$2,000,000, but the permit could not be granted by the building department on account of the present restrictions.

One suggestion was made that an industrial district be created in which no restrictions would be placed on the height of buildings, and that the 150-foot restriction remain in the congested section of the city where office buildings, stores, etc., are located.

Under the contract the city is to give to the Salt Lake road in return for its land destroyed by dredging thirty-six acres of Terminal Island from which the city is to receive no revenue. Mr. Fleming stated yesterday that he believed that

under condemnation proceedings the city can secure \$15,000 a year rental from the road for this land.

FOR HIGH BUILDINGS. Works Board Wants Restrictions Taken Off Industrial Structures.

PLANNING STATE PICNICS GALORE.

Many Large Reunions Will be Held This Summer at Parks and Beaches.

State organizations in Los Angeles are planning a large number of picnic reunions at the local parks and beaches this month and next. The Ohio Society leads the list with an announcement for a picnic and dual Presidential ratification meeting to be held at Sycamore Grove on the 17th inst. Loyal Illinoisians will meet at Long Beach, at a date not yet announced, and the Indiana Society will meet at Exposition Park on the 21st inst. August 7 is the date chosen for former Colorado residents to picnic in Sycamore Grove, and the former Iowans are making plans to entertain a crowd of 50,000 people at Bixby Park, Long Beach, on August 14. On that date, too, the Canadian Maple Leaf Club will meet at Sycamore Grove, and the former Iowans are making plans to entertain a crowd of 50,000 people at Bixby Park, Long Beach, on August 14.

REFEREES SOUGHT FOR THE JUVENILE COURT.

ARRANGE EXAMINATIONS FOR SUPERINTENDENT OF HALL AND OF EL RETIRO.

Half a dozen important positions in the probation department of Los Angeles county will be filled through competitive examinations to be held by the Civil Service Commission of the county in room 1907, Hall of Records on July 29, August 16, 18 and 20. The positions include referees of the juvenile court, to succeed Orin Shultz, resigned, superintendent of juvenile hall and El Retiro, assistant superintendent of El Retiro, deputy probation officer and senior attendant at juvenile hall. It is also desired to get an eligible list for these offices and also for matron of the two institutions.

The referee appointment carries a salary of \$250 per month and the candidates must be women with a thorough knowledge of the laws of the State and the ordinances of the county as they relate to women and children. For superintendent of juvenile hall and El Retiro, salary \$225 per month, the women candidates must have had practical experience in educational, social welfare or institutional work calculated to demonstrate good administrative control and executive ability. Further details regarding these and other probation department positions open can be secured at room 1907, Hall of Records.

FOR STATE MARKETS. Senator Brown Talks to City Club on His Project.

"The farmer must have a place where he can consign his products with confidence that he will receive a square deal," said State Senator William E. Brown at the noon luncheon yesterday of the City Club in asking for support of the proposed state market act which will come before the voters in November.

"No new commission will be satisfied upon you by this act," said Senator Brown. "If the law is passed, only two markets, one here and one at San Francisco, will be started. When they are self-sustaining others may be started, but not until the new markets pay their own way. The public markets will hurt only the producer, not the honest merchant, and will reduce the high cost of living."

'TIS NO STREET FOR STOUTS

Mercantile Place Merchants Say Only Slim Can Wriggle Through Signs.

Parking signs and signs of fruit vendors, flower merchants, and others have lately appeared at each end of Mercantile Place, and some of the merchants there suggested yesterday that if room can be found another one be put up, reading: "For Thin People Only."

"It's getting so a stout person can hardly work his way through Mercantile Place in the rush hours, said one of the shopkeepers whose business house fronts on the street, "and even thin ones have to be expert at finding their way through the mazes of the dance to get through."

"It seems very quaint to some people to find such a cove leading off of Broadway, in a neighborhood where rents are as high as \$90 a foot a month. Right in the middle of our little street, on the edge of Broadway, stands a motor truck about 100 per cent recently."

VACUUM CLEANERS

SEWING AND WASHING MACHINES

LOS ANGELES RANKS AS A BILLION-DOLLAR COUNTY.

Value of Taxable Property Estimated in Ten Figures; Levy Rate to be About Seventy-seven Cents.

BY JONATHAN S. DODGE,
Chairman County Board of Supervisors.

It is estimated that the value of taxable property, both real estate and personal, for the entire county will, during the next year, approximate a billion dollars. It is altogether likely that the same may be somewhat in excess of this on account of the tremendous increase in values and the tremendous building activities that have been prevalent during the past year.

The Board of Supervisors, in fixing the budget for the fiscal year beginning July 1, 1932, found that it would be necessary for general county appropriations to raise for expenditure the amount of \$1,464,764. To this should be added the further sum of \$575,000 provided by law and needed to cover contingencies and delinquent taxes. This would make a total necessary to meet the budget for general county expenses of \$2,039,764. From this amount could properly be deducted the departmental revenues, received from taxes, rents, etc., which we estimate will amount this year to \$1,350,000, and which would reduce the amount to be raised from taxation to \$789,764.

RATE SEVENTY-SEVEN.
Estimating the assessed value at \$1,600,000,000 would indicate at once that in order to raise this sum it would be necessary to make a tax levy of 77 cents on each \$100 of valuation. This would be an increase of 12 1/2 cents over last year's rate of 64 1/2 cents or about 20 per cent of actual increase.

This large sum of money to be raised, is made up of general fund requirements and also of funds necessary to meet the salaries of the 3000 or more county employees. Segregating the amounts, we have determined that the general fund requirements will amount to \$1,100,000, which would include items such as materials, supplies and other operating expenses of the various county departments—in fact all the expenses of county government with the exception of salaries.

In addition to this sum, there should be added for fixed property and equipment, \$36,450 and for new highway construction, \$405,000.

In the matter of fixed property

LADIES DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and No- body Will Know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But, knowing at home is money and out-of-date. Nowadays, by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound" you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two it becomes beautifully dark and glossy.—[Advertisement.]

"DANDERINE"

**Stops Hair Coming Out;
Doubles Its Beauty.**

A few cents buys "Danderine." After an application of "Danderine" you can not find a fallen hair or any dandruff, besides every hair shows new life, vigor, brightness, more color and thickness.—[Advertisement.]

A Simple Way To Remove Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring: Use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.—[Advertisement.]

and equipment, it might be noted that it is the intention of the board to erect next year a contagious pavilion at the County Hospital, which, when finished, will probably cost in excess of \$200,000, and provision has been made for the purchase of some additional land necessary at Juvenile Hall and at the Hall of Records, and for the purchase of a tract of land to be used for an industrial farm, in the event it can be found that the same can be made available for use.

The board feels that an industrial farm, properly conducted, with the aid of the large number of prisoners now confined in the County Jail, would be self-supporting and would reduce the high cost of maintenance now imposed upon the county; in fact, it might even make the time for the building of a new jail for a period of years.

When we consider that commodities used by the county, especially record books and paper supplies, have increased 50 per cent in cost in the last three months, it will be noted that the increase on these particular items, only 22 per cent over the budget of last year, would appear a very reasonable provision.

SALARY NEEDS.
The appropriations for the salary fund, which will take care of the 3000 and more employees of the county, amount in the aggregate to \$4,426,572. From this amount we may deduct the current revenues of \$1,450,000, which would leave a net amount to be raised by taxation of \$2,976,572, which would require a rate in half of 29 cents on each \$100, as compared with a rate of 22 1/2 cents for the past year.

The rate last year was reduced 2 cents by the use of a surplus then available, and when this is taken into account, it will be noted that the appropriations for salaries for the coming year actually exceed the salaries of last year approximately \$100,000. This increase in salaries is partly due to an increase in the rate of compensation, and partly due to the increased number of employees made necessary by the various activities contributing to the present prosperous times and to our rapid growth in population.

Great care was exercised by the Budget Committee in the preparation of this year's budget in order to avoid the expenditure of funds for any purpose that did not seem urgently necessary, and on this account departmental requests of more than \$100,000 were disallowed, and only structural improvements were provided for that seemed indispensable to the proper operation of the departmental functions of the county.

BY GOVERNOR MORRIS.

(The following is the text of a letter written on Independence Day by Mr. Morris, the famous American author, who is now living in Hollywood, to Arthur Levey of this city, chairman of the National Executive Committee of the Anglo-American Unity League.—Ed.)

The Anglo-American Unity League to promote friendship and understanding between the two great English-speaking races has my heartfelt endorsement.

Between the half-crazy German king who tried to coerce the American colonies and the wholly crazy German emperor who tried to exploit and enslave the United States of America lies a history of 144 years which has been extraordinarily enriched for the benefit of humanity as a whole by the friendship of Great Britain for America.

We won our revolt against King George because the half of his subjects were on our side.

We established our Monroe Doctrine upon the suggestion of England and in the shelter of England's fleet.

We preserved our Union through the friendship of England's queen and the incomparable self-sacrifice and love of liberty of the Lancashire cotton spinners.

Admiral Dewey knew what aide the British would take at Manila Bay. The German admiral did not know, but, being a good guesser, he restrained his insolence and remained neutral.

The preservation to the world at large of free institutions depends more upon friendship between Britain and the United States than upon any other thing.

Those who continue to promote discord between these unassuming countries are either fools or knaves.

**HANDSOME NEW FUR
SHOP ON BROADWAY.**

**STORAGE AND MANUFACTURING
FACILITIES DOUBLED
AT COLBURN'S.**

Nothing but the name remains to remind one of the old Colburn landmark on South Broadway. In its place has been erected Colburn's handsome new fur establishment, with a large airy factory excellently equipped with storage and manufacturing departments, double the size of those in the old establishment.

The interior of the shop is decorated in soft French style with mulberry trim, and the Adam period has been followed throughout both in the decorations and in the furnishings.

This establishment is one of four operated by the same company, which last month opened a spacious and handsomely appointed shop in San Francisco.

INCORPORATIONS.

Rockers or Chairs, \$37.50

Reclining chairs or rockers as pictured above with adjustable leg rest and push button feature that adjusts back at any angle. Upholstered in good tapestry of neutral foliage design. Rockers or chairs at \$37.50.
—Sixth Floor.

This Rocker, \$19.85

Large, comfortable rockers with auto spring removable seat in handsome brocade and paneled back as illustrated. A remarkable value at \$19.85.
—Basement.

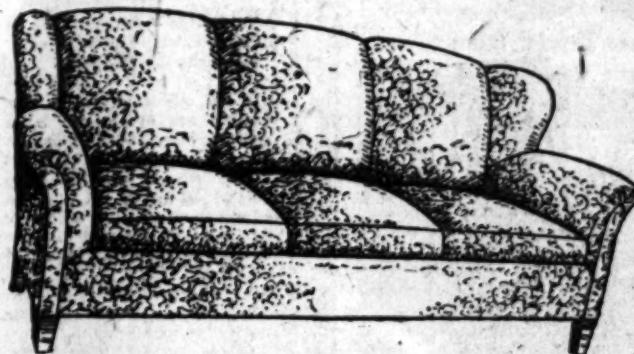

Ninety per cent of our customers pay cash at time of purchase or within thirty days from date of delivery. That is one reason why we can sell for less. "Pay cash and save" is the slogan here.

83 to 91 N. Raymond Avenue

Midsummer Clearance

People who like good furniture at low prices for cash are coming here from all over Southern California to share in the savings made possible by this remarkable sale. Many others prefer to come here because of the individual attention received and superior facilities afforded for parking their car, etc. They find that our service is never ended until they are satisfied and they are glad to recommend us to their friends.

Only a small portion of the many values shown are listed here—won't you come and let us show you how much you can save by dealing with us?

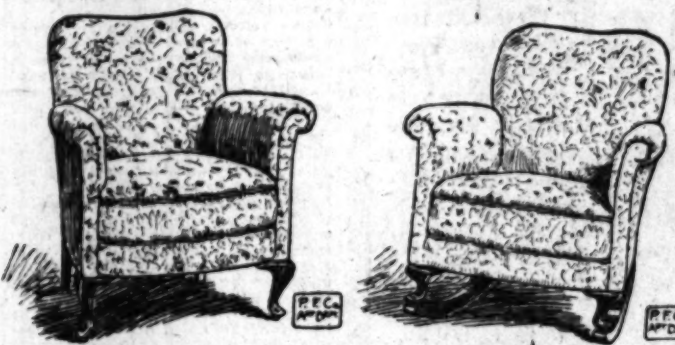

\$212.50 Tapestry Davenport, \$106.25

We mention the former price of this piece to give you an idea of its real quality, as the illustration fails to adequately portray it. This is a full size davenport made of excellent materials and comfortable to a marked degree. The three loose-seat cushions make for added comfort and convenience in reupholstering. Covered with good tapestry in pleasing design and colors and offered in this Clearance at HALF PRICE, \$106.25.
—Sixth Floor.

\$225.00 Tapestry Davenport, \$112.50

Again we call attention to the quality of this davenport as compared with its low price. This piece is good value at our regular low cash price of \$225.00. At \$112.50 it is a value that cannot be equaled anywhere. The construction in back, arms and seat is one of the most comfortable ever devised. Three loose-seat cushions filled with springs rest in turn upon a bed of springs and are a feature found only in the better grade davenports. Upholstered in heavy tapestry of pleasing design and offered at HALF PRICE, \$112.50.
—Sixth Floor.

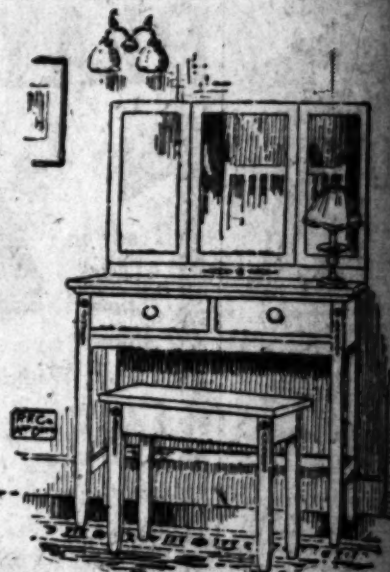

Rockers or Chairs, \$37.50

Notice the graceful lines of these comfortable pieces—they are of a type fitted for the finest homes. The upholstery is of a superior order and the covering used, a tapestry of excellent quality in various verdure designs is calculated to harmonize with any surroundings. Choice of rockers or chairs, two for the price of one in this clearance at \$37.50.

**Porcelain Lined
Refrigerators, \$33.**

The food compartment of this refrigerator has a lining of genuine porcelain electrically welded into one piece, free of cracks or seams. It is "easy to clean" china dish.
—Eighth Floor.

This Dressing Table, \$33

Here is one of many splendid values in this Clearance. It has a top with two drawers as pictured, two mirrors and one 12x20. Choice is afforded of ivory enamel finish with neat Period decorations.
—Eighth Floor.

Rockers or Chairs, \$18.00

Rockers or chairs in the design pictured above with comfortable auto spring seat and back cushions, some tapestry or brocade of good quality, substantially constructed and nicely finished in any. Sale price, \$18.00.

This Chaise Longue, \$33

This is one of the most comfortable pieces of furniture ever devised. It is durable, reed-like strands of twisted fiber woven substantially by hand and the handsome French gray enamel. The rests upon a bed of coil springs, and the comfortable back, is upholstered in pretty patterned fabric.
—Seventh Floor.

MODES AND MORALS. By Katharine

spring prize among writers of tales of college life, says that snobbi-ness is merely good breeding grown dictatorial. One thinks of the definition in reading this collection of essays, most of which have been published in the Atlantic Monthly and other periodicals. If ever there was a snob, the sometimes clever always condescended author

of this book is surely one. Her good breeding has made her dietet-
ical, asceticized, intolerant, all such
things she can eat off with a lofty
and superior superiority.

There is no doubt in Mrs.
Gerould's mind about class distinc-
tions. In her code there are three
classes: the aristocracy, the middle
class and the lower class. The aris-
tocracy is the ruling class, the aris-
tocratic and dwindling portion of so-
ciety who are the guardians of the
culture of the world, the chaperoned
culture one might say; the middle
class is the class that is the main-
stay of the upper strata, for the pa-
vens are low down in the scale and
then there are the great unwashed
who merely perform the unpleasant
duties of the world. The aristocracy
is the present time reaping a share of
the world's goods that quite exceeds
this cultured member of the upper
classes.

In the universities, vocational edu-
cation, the public schools in general
and vocational education in particu-
lar, are a few of the things vastly
disapproved of by our author. In
her chapter on "The Future of In-
dustry," "we shall have to rely on
the older colleges of the East. We
cannot count on the West to help
us. The West is cursed with its
State universities. I have no doubt
my intention of my private inclina-

The second part of the book is devoted to the developments in Russia since the March revolution. This is presented as far as possible by documents giving the de-

When Mary Louise Foster, under the pen name of Louise Forslund, wrote "Old Lady 31," a novel dealing with plain and simple folk, she took in hand by a master dramatist and score a distinct pro-

The dramatic version of this beautiful story was produced by Richard Rothe with Emma Dunn, one of the leading actresses of the day, in the leading role.

The huge success scored by the play attracted the magnates of the screen and the Metro Pictures Corporation had an adaptation prepared for screen production. The story, under the picturesque title, "Old Lady," will be produced on the screen at the Victory Theater, Los Angeles, next week.

The adapting of this story to the screen is a distinct departure. Most of the producers are carried away with the idea that to be a success on the screen a story must have what they rather hastily call "punch."

his story is not of the "punch" variety. On the contrary it is a tale of plain folk, the leading characters

of the

being - Angie, Rome and her band - but hopelessly inferior to the original. The film is long and wholesome story, but it has reached the hearts of all on the stage and that its success on screen will be equally an foregone conclusion.

That Miss Crothers and her husband have had success, not only in pecuniary interest in the play, but because the movie took and may take in educating a ray into the world when the author, Lucius Barker, has been able to get the returns from the play to be used for the support and education of the child.

The People and Their Daily Troubles

STRETHYDIX TALKS

CULTIVATE GRACIOUSNESS.

BY DOROTHY DIX.

Not long ago a man, who was the father of five children and in his will he gave many instructions as to how his boys should be brought up. Among other things he said:

"I wish to lay particular stress upon my sons' being taught gracious manners. Boys are not liable to realize how far social qualities count in life. No man is likely to go far in the world unless he is popular with his fellow-men and women, and knows how to get on with them. Taciturnous youth makes all the difference in this respect, and although I do not want the boys to make a too conscious effort to be popular, I want those concerned with their training to keep an eye on the part of their education, and to see to it that they acquire that quality of demeanor that will make them pleasant to those with whom they come in contact."

I do not know how much money this father left his boys, but I am sure that the most valuable bequest he made them was this quality of graciousness.

For graciousness is a letter of credit that the whole world honors at sight; it is the magic that opens every door; it is the charm that makes friends and dispels enemies; and that causes every man, woman and child to help hand up the ladder to its fortunate possessor.

What we vaguely describe as personal magnetism, or a winning personality, is nothing more nor less than graciousness, the ability to do the nice thing in the nice way and to say the pleasing thing in the pleasing way.

Without graciousness even the virtues become as dust and ashes in our teeth, and kindnesses to us are an offense against us.

Haven't you had people do you a good turn in such an insulting way that you hated them for it? Haven't you had people give you things with such an ungracious manner that you longed to throw their gifts back in their faces?

And haven't you had people refuse you things with so charming a manner that you went away sorrowful for their refusal? They couldn't oblige you, they refused for yourself because you didn't feel what you had asked for? There is the difference between graciousness and ungraciousness.

There are people who cannot give you a pocket handkerchief without making you feel that you are a pauper; who never do you a kindness without making you realize that it is a great sacrifice for them; who cannot associate with you without patronizing you; whom you never spend an hour with without their wounding your feelings or hurting your self-love in some way. They may be well-meaning, good kind men and women, but their brusque and brutal manners make them enemies instead of friends.

They are the sort of people who, while they are relieving your needs, deliver you a lecture on your lack of thrift; who feel it their sacred duty to tell you of your weaknesses and shortcomings; who will take credit to themselves because with all your faults they love you still. The gracious man or woman may not give you half so much, but they do it with a sympathy that warms the very cockles of your heart; they make you feel that they consider it a privilege to know you instead of impressing on you that it is an honor for you to know them, and you never go from their presence without in some subtle way having your opinion of yourself somehow inflated.

QUESTIONS ANSWERED

Question: Are five and ten-cent stores able to sell goods today and still make a profit? F. J. K.

Answer: According to the report of one of these corporations the number of their stores has increased from 805 in 1915 to 1031 in 1919, and the average net profit per store has increased from \$976.45 in 1915 to \$955.15 in 1919.

Q: How many United States Senators are bachelors? R. G. A.: At the present time there are eight unmarried Senators, namely, Brandegee of Connecticut, Hale of Maine, McMillan of Tennessee, Penrose of Pennsylvania, Hoke Smith of Georgia, Marcus Smith of Arizona, Walsh of Massachusetts and Phelan of California.

Q: Is French Guiana well settled? A.: French Guiana is the penal settlement of France. Its surface rises gradually from the unhealthy coast of the mountain border on the south. Only a small part of the country is known. Fevers, particularly yellow fever, decimate the region and have proved so fatal to French convicts that their white prisoners have long been sent elsewhere. The Ile du Diable, off the coast, became famous through the imprisonment there of Alfred Dreyfus.

Q: Name in sequence the wives of Henry VIII. T. R. G. A.: Catherine of Aragon, the first wife, was divorced by Henry, who then married Anne Boleyn. She was beheaded in May, 1536. Jane Seymour was the next wife of the king and she died the next year at the birth of her son, later Edward VI. Anne of Cleves's marriage with Henry followed, but the marriage was annulled, and Catherine Howard succeeded her as Henry's wife, only to meet the fate of Anne Boleyn on the block. Catherine Parr, Henry's last queen, had the luck to outlive the king. Of Henry's numerous marriages only three children survived, him—Mary, the daughter of Catherine of Aragon, Elizabeth, Anne Boleyn's daughter, and Edward VI, Henry's successor. Jane Seymour's son.

Q: What is the origin of the name "California"? V. V. H. A.: The name was first applied to Lower California, and probably was taken from the name of a fictitious island abounding in gold and precious stones, which was described in the Spanish romance "Las Sergas de Esplandian," published in 1510.

Q: What is the correct name of the game known as "Mumble-ty-peg"? I. M. C. A.: "Mumble-ty-peg" is really the name of this children's game. "Mumble-ty-peg," another designation for the game, derives its name from the fact that the loser must draw a peg from the ground with his teeth after it has been driven in by the winner. The game consists of a specified number of plays performed with a jack-knife.

Q: How much money did the United States owe Great Britain before the World War? C. B. A.: The division of public money of the Treasury Department states that although a great many American securities were owned by residents of Great Britain, the United States government did not owe Great Britain any money—that is, this government had not borrowed any money from that country.

Q: Is it true that Maj. Andre was shot instead of hung? D. A. L. A.: Maj. Andre asked that he be

LETTERS TO "THE TIMES."

Answer on Suffrage.

LOS ANGELES, July 10.—[To the Editor of The Times:] It seems that Miss Annie Rock, who, in Thursday's Times, expressed her views on woman suffrage, has been bitten by some poisonous reptile and it is safe for humanity to guard against infection.

We cannot blame suffrage for an increase in immorality, divorce and crime or say that suffrage caused or cheapens woman, nor do we say that she must needs remain under subjection and not place herself intellectually on a common level with man, but willingly trust all politics and governmental affairs to the beloved husbands, fathers, sons and brothers.

Competition is the life of trade and men cannot afford to become stagnant or indifferent. Let them awake to the fact that they need to be up and doing to keep pace with the woman worth while. The man himself realizes that he wants the admiration of the woman who sets a standard for ideal manhood.

Where is the woman who will sacrifice her feminine graces or is going to allow politics and other questions of vital importance to make her coarse and unattractive. It is not intellectuality that cheapens any woman, but it is the lack of

such a quality and a yearning for the smaller things in life. I say, let the woman turn loose all her subdued forces and man will readily recognize his competitor and be glad to shake the gentle hand that beckons him to come higher up the scale.

It is evident that not only women, but men, too, recognize woman suffrage as an advance movement, and no calamity need come of it. MISS MARGARET STEIN.

Against Wilsonism.

LOS ANGELES, July 7.—[To the Editor of The Times:] For the first time I shall vote the national Republican ticket. I have been a life-long Democrat; am a native of the South and was a Confederate soldier. But I cannot stultify myself by voting a ticket tainted with Wilsonism. It is charged that the Democratic platform was outlined by the would-be czar, and though he and his Crown Prince were defeated, the stigma still remains.

The head of the ticket seems to be Jone-like—looking both ways, and the tail is, or was, headed toward radicalism. However, he is connected with the Woodrow administration, and that is enough to condemn him. I regret that I must break a long record, for I have voted for every candidate that was labeled "Democrat." It was, and evidently is, an "unwritten law" of the party to vote for anything labeled "Democrat"—even a yellow dog, and I have done it; but for the last time.

In later years, when the Demo-

cratic party regains its sense—it such a thing is possible—and nominates real Democrats on a real Democratic platform, I will again vote the Democratic ticket. J. M. SCANLANT.

The Mess of Potage.

SOUTH PASADENA, July 6.—[To the Editor of The Times:] Those who have been looking, day after day, for a place to rent, cannot help but notice the very peculiar condition of the real estate market. Nearly every block in certain sections contains homes for sale, while a house to rent is as scarce as a water hole in the desert.

A house is put up for sale, as a rule, because of one of three things: The owner is leaving for parts unknown, there have been financial reverses or a change is prompted by prosperity. All these reasons are natural and proper, but now we must add a fourth which is most easily explained by citing a recent instance.

John Smith had a loving, economical wife, three small children and a mortgage, as he also had perfect health and a good position, this mortgage on his home, which was purchased for \$1500 six years ago, gave him very little worry, and the day came when the last note was paid. With no more rent to meet and no one to complain if little Harry should drive tacks in the kitchen wall, the Smith's happiness was complete till one unlucky Sunday an automobile stopped in front

of this little home and offered \$4000 for it. Having no more mortgage, the Smith and his wife sold the \$1200 profit to the dollars and so without much it would cost them their little home, or more accurately the purchase price, they sold.

After a week of looking locally where they could not be real estate capital and as they could only find that the owner wanted, at last, however, they discovered that they had succeeded in renting a home for \$15 a month, now figured out that they pay the rent for the house which he will be back in six years ago.

Old Mr. Ames had a fine house, a large lot, a meat into his morning water and saw nothing much larger than his house, almost large enough to see any companion in Smith and Ames's house.

She: You know about people's houses. He: Just! I don't like it?—[Boston Times Herald.]
